Spring is traditionally known as a time of renewal, new beginnings and rejuvenation. It is the time when most of us take stock of who we are and where we want to be in the future.

For those of us at *The Clackamas Print*, the arrival of spring gave us the opportunity to revise, renovate and recreate the college newspaper.

What you hold in your hand today is the premiere issue of the newly-designed *Clackamas Print*. Many hours were spent in creating it.

We could have continued cranking out the same old design for the next term. To have done so would not have given each of us the opportunity put to use our collective and creative talents.

One of our goals, which was set way back in the fall, was to have the best college newspaper in the West. Our first task to accomplish

this was to concentrate on the content of our news, feature, arts and entertainment, and sports stories. Various positive comments from throughout the college and the community let us know we had succeeded.

Our second task was to create a new and more lively look to the paper. We sent our design team to a workshop where they cultivated a myriad of ideas. Once presented to the staff, we weeded out the ideas we wanted and put them to work.

With any new undertaking or change there is always a time of adjustment not only for the staff but also for our readers. We look forward to this because change can be both good and positive.

We will be incorporating some special sections in the coming weeks and hope you take the time to enjoy them.

Please feel free to call me at ext. 2576 with any ideas for stories or comments on our new design.
