## Men, women battle for 3rd, 4th in track championship

CHRISTINA MUELLER  
Sports Editor

The men placed third and the women fourth at the Northwest Athletic Association of Community College's Championship track meet, held at Clackamas.

"We were hoping to finish in the top three for both teams, but we knew we had a battle on our hands," said Coach Mike Hodges.

The men's team finished the meet with 104 points and took home a trophy.

"The men scored in every event we entered except one," Hodges said. "If you're going to win or win a trophy in every event that comes up, you just have to keep earning points."

The Community Colleges of Spokane took first place with a 143 points.

### Men's results for Thursday

Thursday turned out to be a perfect day for the meet, with no rain and moderate temperatures.

Shawn Davis placed first in the hammer throw with an NWAACC and school record of 187 feet and 6 inches. He was the leading competitor for the hammer before the meet. Aaron Stacey took fifth place with a distance of 123'02".

In the pole vault Bill Jones placed first with a

height of 17'.25". The height was an NWAACC record. The previous record, 16'5", was held by Curtus Haywood of Linn-Benton. Haywood competed in the Olympics last year.

"We've had three Olympic pole vaulters come out of the NWAACCs and he [Jones] broke a record well above what any of them had cleared," explained Hodges.

Jones had several injuries during the season and had only started practicing again the day before. He was unable to compete in the Southern Region Championships and could not run for three weeks.

Phil Elle and Vasili Tsirimiagos of Clackamas tied for third in the pole vault with a height of 14'. The three pole vaulters combined for 20 points.

Eli Townsend placed fourth in the long jump with a distance of 21'11.75".

Shawn Davis took sixth place in the discus at 134'09".

In the 10,000-meter run Evan Goin placed eighth with a time of 34:12.53.

### Men's results for Friday

On Friday the weather took a turn for the worse with periods of rain. The men were able to reel out several more top placings.

## HEEL performs waste audit

BRAD ZIMMERMAN  
Managing Editor

During a 22 hour-long "solid waste audit" the Helping Everyone's Environment Live club sorted through one full day of garbage.

A recycling task force assigned the task of determining how much recyclable material was present in a day's worth of trash.

HEEL and the college's plant services department picked up 24 hours of garbage. To make sure that the study was as accurate as possible, HEEL had plant services empty all trash cans and bins the day prior to the audit, so only one day's worth of trash would be counted. In addition, the audit was performed during the middle of the week and in the middle of the term so the amount of trash would not be abnormally high or low.

"It [the audit] shows two things: the college really could save money by recycling. ... And I think it does show there is a need to put some money up front into a recycling program," said HEEL Member and recycling task force member Cathy Andrew.

Andrew said that a focus of the audit was to see how much paper could have been recycled. Paper accounted for 28 percent of all interior trash and 11 percent of all exterior trash.

## Who's afraid of the big bad wolf?

CHRISTINA MUELLER  
Feature Editor

"The Three Little Pigs" are coming to Clackamas tomorrow, but not as the traditional children's story we know so well.

The production is a traditional British pantomime. Pantomimes, developed approximately 100 years ago were traditionally done at Christmas time, and still are in Britain.

"This is something most people have never seen. The style is unique and it's very funny," said Director David Smith-English.

To form a pantomime, the script is taken as a framework and then music, dance and jokes about the political and social system are inserted, making the play absolutely hilarious.

"We're going to have fun with the water intrusion project and the political parties," said Smith-English.

One humor technique used often in the play is the changing of the lyrics to familiar songs.

"It's a very appealing kind of form," Smith-English shares.

Not only is the play funny, but it is done tastefully for both kids and adults.
