

Datatel system hastens registration

Help Center Data Specialists (l-r) Glenna Baer, Roni Wilhelm, and Donna Riley experiment with the new Datatel registration system.

CHRISTINA MUELLER
Co-Editor-in-Chief

A mock registration took place last Friday to help employees working with the process learn how to use the new Datatel system and follow new registration procedures.

The mock registration also provided employees with a chance to determine exactly how long the registration process might take with the

new systems, which will give them an idea of proper staffing to have on hand and when to schedule appointments.

The new process, which is expected to make registration go more smoothly, will be implemented in time for early fall registration which takes place during the week of May 18-22.

New services that will be provided with early fall registration include additional payment options such as having the opportunity to schedule classes

and make arrangements for payment later.

In-person registration will give students the chance to update their student record and register for classes all in one place. This will initially be done during individual advising/ registration sessions and take place in the Help Center thereafter.

Beginning with Summer Term registration, students will also be able to register by phone seven days a week from 7 a.m. to midnight for up to 19 credit hours. There will be an option to add and delete classes using the touch-tone telephone registration system.

Also beginning with Summer Term registration, students will be able to register by mail for up to 19 credit hours. More information on the new processes being offered is available in the summer schedule of classes or in the packet that students should be receiving in the mail shortly.

Important dates: **Early Fall Advising/Registration** sessions for returning students May 18-22, **Early Fall Registration** for returning students May 26-Aug. 20, **Summer Term Registration** June 1-25, **Graduation Ceremony: GED/Adult High School Diploma** June 11, **Certificate and degree programs** June 12, **Summer Term Classes Begin** June 22, **Early Fall Advising/Registration** for new students July 7-Aug. 12, **Last day to pay** or make arrangements for payment of Early Fall Registration Classes Aug. 20.

Focus on environment

The third annual Environmental Week, sponsored by Associated Student Government (ASG) and Helping Everyone's Environment Live (HEEL), will take place May 18-22.

Events such as live bands and environmental awareness talks will take place each day from 11 a.m. to 2 p.m. in the courtyard between Barlow and the Community Center.

There will be a pasta bar available on Monday, Wednesday and Friday. Frisbees and mugs will be given away during a variety of games and contests. In addition to several environmentally friendly groups, a few local political candidates will also be on hand throughout the week.

Earthy Events

Every Day

SOLV, ELC, Oregon Department of Fish and Wildlife, Greenpeace, Oregon Natural Resource Council (ONRC)

Monday
