Fun and adventure for everyone!

It's a scientific fact -
he's fuming inside

After just minutes of exposure to secondhand smoke, his immune system is weakened, blood thickens and his heart beats faster. Magnify that by a day, a week, a year, and he may as well be smoking, himself.

You want your teenagers to start working, not smoking.

Find out what you can do about it! Call the Coalition for a Tobacco Free Clackamas County at (503) 557-5898
