The real world would be so much simpler if only it worked like the college world.

Imagine. The answers to life's questions could all be found upside-down at the end of a textbook.

Missed opportunities could be capitalized upon with a simple make-up exam.

And problems at work could be instantly remedied by taking the semester off.

At Portland State, we realize that the real world will never be like college.

So we've tried to make college a little more real.

More practical. More pragmatic. More relevant to life far beyond the ivy-covered halls of academia.

IF COLLEGE IS SUPPOSED TO PREPARE YOU FOR THE REAL WORLD, HOW COME THE REAL WORLD ISN'T MORE LIKE COLLEGE?

That's why our curriculum focuses not only on books and lectures, but on actual real-world experience in your field.

So you're out in the community learning how the real world operates.

Solving problems. Communicating. Collaborating.

In short, learning the things you'll need to know to succeed - not just while you're going to school, but long after you graduate.

Call us at (503) 725-9983 or visit www.pdx.edu to learn more about Portland State.

We're here every day. Just like people who live out there in the real world.
