Your Horoscope for Today

With Dr. James Tombe, Master of the Stars

Aries (Mar. 21 - Apr. 19) You will think no one understands your genius, when in fact they do not understand your *genus*.

Libra (Sep. 23 - Oct. 23) The good news: you will lose a lot of weight this week. The bad news: it will involve a flesh-eating virus.

Taurus (Apr. 20 - May 20) Disaster will ensue when you test the theory about horseshoes and hand grenades.

Scorpio (Oct. 24 - Nov. 21) Remember that saying, "In the land of the blind, the one-eyed man is king?" Well, you're not him.

Gemini (May 21 - Jun. 21) Killing two birds with one stone will seem like a pretty good idea soon after you get your car washed later this week.

Sagittarius (Nov. 22 - Dec. 21) Your religious conviction will not be enough to keep you from engaging in premarital sex, but at least you will have the courage to adamantly refuse to use protection.

Cancer (Jun. 22 - Jul. 22) Your latent racism will cause you to project it upon others.

Capricorn (Dec. 22 - Jan. 19) You will be disappointed to find that Soylent Green is actually made of tofu.

Leo (Jul. 23 - Aug. 22) You will feel disgust when you realize that your genetic makeup is determined by what is in your parents' jeans.

Aquarius (Jan. 20 - Feb. 18) You will realize that whoever said there is not such thing as a free lunch has obviously never heard of the dine-and-dash.

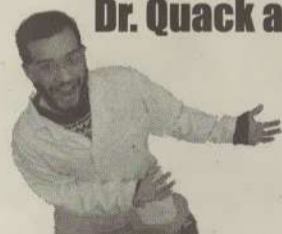

Virgo (Aug. 23 - Sep. 22) Your decision to play with your pet candiru fish in the bathtub will lead to disastrous (and painful) results.

Pisces (Feb. 19 - Mar. 20) The horoscope called off on account of rain.
