

IMPROVEMENTS: College plans for greater accessibility, better bookstore

Continued from SUMMER IMPROVEMENTS, Page 1

"The exposed aggregate surface and unevenness caused by the trees makes the pathways hazardous for those [with physical disabilities] trying to get around campus," said Pearson.

As well as adding more ADA parking stalls near Rook Hall and Randall, Pearson is planning on adding on to already existing crosswalks and concrete paths.

"This will be able to provide a complete connection from the 213 entry to the core of the campus," explained Pearson.

"The priorities Kirk is addressing are exactly what need to be addressed. He has done a great job listening and letting [us] share our concerns," said Advising and Counseling Department Co-Chair Bill Zuelke.

One of the other big improvements that will be made this summer is a new paint booth for the automotive department.

"The one they have now is old and is no good for the way people paint cars now," said Pearson.

The new paint booth will be constructed in part of

the parking lot behind the Barlow garage.

It will have two booths to paint in and an area for classes to observe.

A project that has been ongoing, as students might have already noticed, is renovation in the campus bookstore.

"It is more of a cosmetic facelift," explained Pearson.

Originally the bookstore had to use some of its space as a warehouse, which did not leave much room for the sales floor.

"We're increasing the size of the sales floor and creating an extra space for the warehouse so they will be truly separate," said Pearson.

Pearson believes that most of the improvements won't be especially intrusive to students during the summer.

He suspects that parking situation will be the most bothersome.

Anyone with questions about the improvements happening

this summer can contact Pearson at (503) 657-6958, ext. 5069, or by e-mail at kirkp@clackamas.edu.

Getting rid of meth

Sam Krause

The Clackamas Print

Methamphetamine and its effects were the topics of a discussion led by Senior Deputy District Attorney Dave Paul Friday in the Literary Arts Center in Rook Hall.

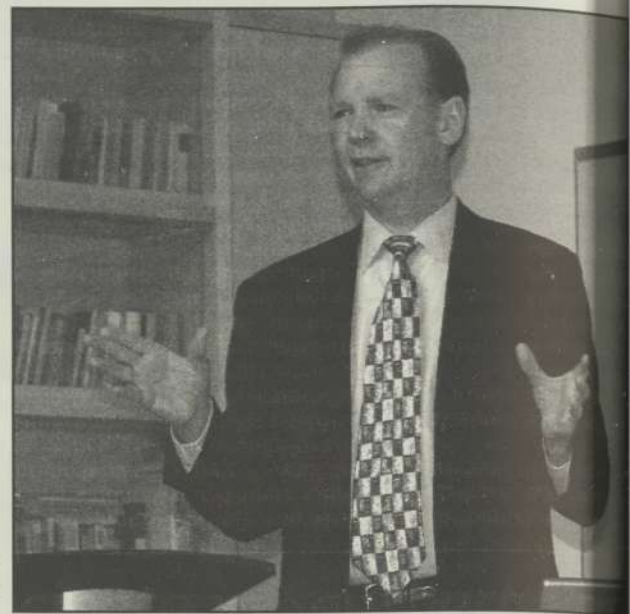

Since 2001, Paul has sought to inform those who work the most with addiction and those who can intervene when there is a problem.

To begin the lecture, Paul explained his position in the county: his experience "is from the prosecution end and how it deals with lives."

"[There's] increased awareness of a problem in the community," said Jean DeVenney, a counselor here at the college.

Many counselors and advisors attended the lecture to learn from Paul's experience.

"We are the frontline. We're the first people called when there is a problem or issue," said DeVenney.

SUSPENSION: Student behavior raises complaints, concerns

What guilt by association means is that someone like Hope wouldn't have to be the one causing the disturbance, but he could get in trouble by not asking the person who was behaving inappropriately to stop.

"[The counselors] told us that we can ask them to stop or we can just leave, which I find reasonable," said Bush. "You can just leave."

She went on to say that certain students don't seem to be taking the warnings seriously and asking them to stop

doesn't work.

"From what I've seen nothing really has gotten better," she said.

"They haven't gotten expelled," she added. "It seems

like just a lot of talk from the counselors."

Kandratieff said there haven't been problems with the group before this most recent event.
