Last week's sudoku

the week in horoscope

By Swami T. De Torquemada

ARIES (March 21-April 19): Most people don't particularly like you – now is the best time to cry about it.

TAURUS (April 20-May 20): Due to the position of Mercury, you may discover this week that both your boss and the government are screwing you over financially – take this opportunity to light something expensive on fire.

GEMINI (May 21-June 21): The stars say you have multiple personality disorder – this will likely lead you to discover that both you and your lover are having an affair with the same person.

CANCER (June 22-July 22): Brush your teeth.

LEO (July 23-August 22): Apparently Jupiter wants you to punch yourself in the face – I'd listen; it's much bigger than you are.

VIRGO (August 23-September 22): It's important to remember this week that money isn't everything – but hookers are.

LIBRA (September 23-October 22): Your life is quite literally a joke – take pauses in your conversations to allow others time to laugh at you.

SCORPIO: (October 23 - November 21): T

other people's expense.
