the week in horoscope

By Swami G. S. Patton

ARIES (March 21-April 19): The alignment of Polus Massa with Saturn's moon Epicurus indicates you are going to be extremely lucky this week, especially when it comes to gambling. Take your life savings out of the bank/mason jar in the backyard and head the nearest casino.

TAURUS (April 20-May 20): This week holds many surprises for you. Be wary of manholes, bear traps and closets. If you are worried, carry a dead fish.

GEMINI (May 21-June 21): Venus says you have too many pairs of shoes and you have bad teeth. I am very sorry, Venus is a jerkwad.

CANCER (June 22-July 22): Your chances of getting a world record are going up. Unfortunately, you are getting close to the record for the largest number of STDs one person has ever had at the same time.

LEO (July 23-August 22): Ally yourself with a Sagittarius this week. If you don't then you have only yourself to blame.

VIRGO (August 23-September 22): The Andromeda galaxy says you are going to get into

a fight with a hairy gorilla like woman week, either that or an actual gorilla. worry though; once you go to the hospital your injuries you'll get prescribed Vicodin.

LIBRA (September 23-October 22): It's been a long and hard process for you. But this is the best time to screw with the bastard Scorpios, especially on their birthday.

SCORPIO (October 23 - November 21): Your birthday is going to suck. I'm not sorry.

SAGITTARIUS (November 22-December 21): Avoid Leos, your life may depend on it.

CAPRICORN (December 22-January 19): Your spouse is cheating on you with a lawyer. Cheat on your spouse with your mother-in-law as revenge.

AQUARIUS (January 20-February 18): This is the week for you to take a vacation. It indicates your boss won't even care if you don't come back.

PISCES (February 19-March 20): Since you trust is going to put you under a barrel roll.
