END OF THE WORLD CRAZE

the week in horoscopes

By Swami G. Zhukov

ARIES (March 21-April 19): Remember to live your life to the fullest. This is especially important because it is going to end soon.

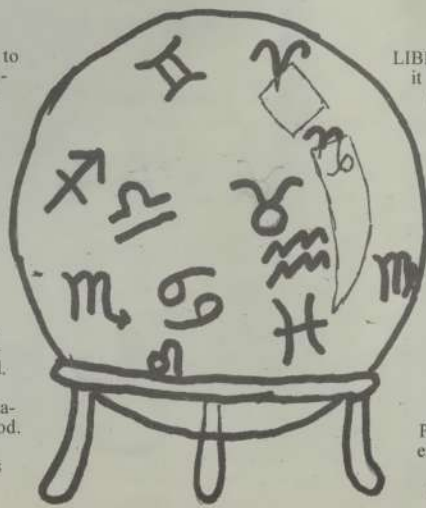

TAURUS (April 20-May 20): Your teachers at school or your bosses at work don't like you very much. Don't worry though, Pluto's alignment with Neptune indicates that they all have dementia.

GEMINI (May 21-June 21): This week marks a great victory for you. You will tell the best joke of your life. Unfortunately you will laugh at your own joke so hard you will also wet your pants.

CANCER (June 22-July 22): You remember those monsters that used to live under your bed? Well you weren't imagining them. You just repelled them because you smell bad.

LEO (July 23-August 22): Don't touch any staplers this week. It's for your own good.

VIRGO (August 23-September 22): Mars says all your favorite television shows are going to be canceled and replaced with infomercials.

LIBRA (September 23-October 22): As entertaining it would be, Jupiter says it isn't a good idea to do that piece of toast to your cat. Then again, Pluto Centauri says you should do whatever the hell you want.

SCORPIO (October 23 - November 21): Procyon's comment with Eradi indicates that you should drop out of school or quit your job because you are going to win the lottery.

SAGITTARIUS (November 22-December 21): You should stay indoors this week. If you get rained out, you will catch a cold, and your mom most certainly will not approve of that. At least wear a coat, dammit.

CAPRICORN (December 22-January 19): One of your friends is going on vacation and is going to ask you to house-sit for them. It is a good idea to refuse. You don't need friends who are away from home.

AQUARIUS (January 20-February 18): Chiron, Pluto's moon, says you should take candy from your enemies this week. Everyone loves candy, don't you?

PISCES (February 19-March 20): Clean your room. Do a good deed.
