

horoscopes for the week

By Swami H. of Carthage

Aries (March 21-April 19): Mercury says lots of people are much more competent than you.

Taurus (April 20-May 20): The stars say breathing is overrated. Try not breathing for a few days and see how it suits you.

Gemini (May 21- June 20): For the next week you should be extremely cautious of windshield wipers. They might just be the death of you or at least get you maimed.

Cancer (June 21-July 22): Several of the cells in your body are planning a revolt. Be prepared to put the revolt down just as an authoritarian police state would.

Leo (July 23-August 22): Your friends are always laughing behind your back. Do whatever it takes to make them take you seriously.

Virgo (August 23-September 22): The Rubicon star cluster demands you take off your pants immediately.

Libra (September 23-October 22): A Scorpio is trying to drop a me on your house. Do a barrel roll.

Scorpio (October 23-November 21): It may require billion dollars, but meteor drops are super-effective weapons of destruction.

Sagittarius (November 22-December 21): Saturn's m
Tethys says you will be shot by a grenade launcher.

Capricorn (December 22-January 19): You will be as a monstrous villian in a new horror film because you are so hideously ugly and disfigured.

Aquarius (January 20-February 18): The next time you are riding a bus you will find \$5 on the seat next to you. You will also be covered in molasses. So ask yourself this question: "Is \$5 worth super sticky hands?"

Pisces (February 19-March 20): Your car is actually a Deception. In order to protect humankind, you should drive into the nearest marble or limestone quarry. The impact from the crash should destroy it and make you here.

dot game

Draw one line at a time with your friends; whoever finishes a box puts his or her initial to claim it. Keep adding lines and finishing boxes, until you run out of dots.

This image shows a full page of dot grid paper. The background is a light gray color, and it is covered with a regular pattern of small, dark gray dots. The dots are arranged in straight horizontal and vertical rows, creating a grid-like appearance. There are no margins, text, or other markings on the page.
