Sports back in full swing

by Blake Thomason

So the summer is over and school is upon us yet again. However, with the end of summer comes the best reality entertainment — sports.

The NFL and college football are in full swing, the NBA and NHL start and the MLB heats up. Here at Clackamas Community College, sports get underway as well. You can check out the sports calendar for when and where all the Cougars teams play. What about if you want to play yourself?

“Yeah that sounds pretty fun,” Brian Connelly, returning CCC student said. “I’d be very interested in both competitive and casual sports.”

CCC offers multiple opportunities to do so. The Associated Student Government organizes intramural sports for any and all students who want to play. Each term the sports change to match the season. For example, last fall term there was flag football, last winter term there was basketball and last spring term there was volleyball. Unfortunately, not every sport has a great turnout.

“I tried to play flag football last fall term,” Connelly said. “But there was never enough people.”

Hopefully a new year will bring better turnouts. ASG advertises intramural sports on myClackamas as well as around campus on posters. We at The Print will also do our best to keep you updated on any news or changes.

If you don’t like the sport that is being played that term, or you just don’t like playing sports, there are other athletic facilities available. CCC has a weight room, track and trail available all throughout the school year.
