

Find your way around campus

BY VICTORIA TINKER

As a freshman I would always try to study in the Community Center. I found it extremely difficult to focus, so on the hunt for a new spot, I tried Randall, Rook, Pauling and finally ended up in DeJardin. It's quiet, sunny and usually filled with other students also studying quietly.

Use this map over the year to help you find your way around campus. Keep a copy in your bag and add some of your favorite spots that you find around campus.
