

# SCHOLARSHIPS/NOTICES

## Arthur S. Bensell Memorial Scholarship 2002-2003

Arthur S. Bensell was an educator, civic leader, Tribal Council member, and tribal chairman. He spent many years in service to his community and tribe as mayor of the city of Siletz and as a tribal leader.

Art attended Ohio State University and graduated from Heidelberg College in 1934. During his career with the Bureau of Indian Affairs, he served as a teacher, principal, and reservation principal in Minnesota, Alaska, and North Dakota.

Upon returning to Siletz, Art became involved in tribal business affairs, served many years on the tribe's Education Committee, and always strove for better educational opportunities for tribal members.

In loving memory of Arthur, a memorial fund was established through the Confederated Tribes of Siletz Indians of Oregon. It is used to honor and award tribal members majoring in education. The \$1,000 scholarship is administered by the tribal Education Committee and strengthened by various fund-raising activities throughout the year.

To apply for the Arthur S. Bensell Memorial Scholarship, please submit the following:

- 1) Documentation of acceptance at an accredited vocational training or higher education institution, two-year, four-year, or graduate school
- 2) 1,000-word essay addressing the annual theme: **Describe the gift of education and the benefits that follow.**
- 3) Three letters of recommendation

Essays will be judged on content, organization, and theme development, and use of proper grammar, spelling, and punctuation.

## Public Comment Invited

The U.S. Environmental Protection Agency (EPA) invites your written comments on proposed air quality rules for Idaho, Oregon, and Washington Indian reservations.

These basic rules, developed under the Clean Air Act (CAA), would establish enforceable air pollution regulations on Indian reservations in Idaho, Oregon, and Washington where there currently are no EPA-approved tribal or state implementation plans.

They would provide air quality protection for the public within reservation boundaries by controlling emissions from sources located within reservations in a manner similar to how sources located outside the reservations are regulated.

The rules include a program for identifying air pollution sources, procedures to follow during air pollution emergencies, rules for open burning, and some emission limitations for industrial sources.

Copies of the proposed rules are available by calling 206-553-0977, or on the Web at <http://www.epa.gov/r10earth/tribalairrules.htm>.

Written comments must be received no later than June 13, 2002. Please send your comments to:
