

Internships

Carnegie Science Center Internships

Deadline: Aug. 12

This program seeks highly motivated college students with a passion for learning. Each intern will be provided with the opportunity to be creative, apply classroom studies in a practical application, and develop personally and professionally. In return, Carnegie Science Center will receive valuable assistance that contributes significantly to the science center's goals.

Internships are available in several different departments within the science center.

OMSI Internships

Deadline: Multiple

Not your grandma's internship, so forget making coffee and running errands. Our internships are built with you and your professional goals in mind.

Our program is competitive, but we're eager to hear from you. Our unpaid internships are typically 12-week commitments.

Hoping to get credit? Contact your advisor or department chair to inquire

about your school's policy and procedures for awarding credit for internships.

U.S. Fish and Wildlife Service

Deadline: Multiple

The new Internship Program provides students in high school, college, trade school and other qualifying educational institutions with paid opportunities to work in agencies and explore federal careers while completing their education.

The Recent Graduates Program provides developmental experiences in the federal government. It is intended to promote possible careers in the civil service to individuals who, within the previous two years, graduated from qualifying educational institutions with an associate, bachelor's, master's, professional, doctorate, vocational or technical degree or certificate from qualifying educational institutions.

National Science Foundation

Deadline: Multiple

NSF funds a large number of research opportunities for undergraduate students

through its REU Sites program. An REU Site consists of a group of 10 or so undergraduates who work in the research programs of the host institution. Each student is associated with a specific research project, where he/she works closely with the faculty and other researchers.

Students must contact the individual sites for information and application materials. NSF does not have application materials and does not select student participants. A contact person and contact information is listed for each site.

EPA Environmental Research and Business Support Program

Deadline: Multiple

This program provides opportunities for exceptional undergraduate and graduate students and recent bachelor's, master's and postdoctoral STEM graduates to work in the U.S. Environmental Protection Agency's (EPA) Office of Research and Development (ORD) research and administrative projects at multiple EPA laboratories and research centers.

ORAU manages the EPA Environmental Research and Business Support Program under the Student Services Contracting Authority. Selected applicants will become temporary employees of ORAU for the duration of the assignment, up to five years.

EPA Internships

Deadlines: Multiple

EPA internships and fellowships provide a great introduction to our work, giving you a sense of whether EPA might be the right place for you. Internships, fellowships and other opportunities are available at our Washington D.C. headquarters, in our 10 regional offices, and at our labs and research centers throughout the nation.

EPA hires high school and college interns for administrative/clerical positions as well as technical positions in areas such as life sciences, program or policy analysis and engineering. Most positions have salaries ranging from the GS-2 to GS-7 level. All internships paid by EPA appear in the government-wide USAJobs.gov portal.

Visit gardens at Otter Rock, help Samaritan House Homeless Family Shelter

The 13th annual Secret Garden Tour sponsored by the Samaritan House Homeless Family Shelter in Newport, Ore., is set for June 26 from 12-5 p.m.

Tickets are only \$25 and include visits to the gardens, light snacks and wine as well as musical entertainment. Participants are encouraged to bring their own water.

Shuttles will be provided to access some of the gardens.

This year the gardens are in the unique coastal community of Otter Rock, just north of Newport. The gardens have many special features, including ocean views, natural grasses, garden art, rock walls and a piece of a McCullough bridge.

The garden tour provides an opportunity to see lovely gardens that normally are enjoyed only by the owners and their families and friends. It is a wonderful way

to see the many flowers, grasses and plants that can be grown at the coast, as well as how to use the natural beauty of the area to enhance your own garden and yard.

The money raised from this event benefits the Samaritan House Homeless Family Shelter, the only family shelter on the Oregon coast between Coos Bay and Tillamook. Its mission is to shelter, educate and guide homeless families with

children toward independent living.

Tickets are available at JC Thriftway Market in Newport, Toledo Feed and Seed, Bear Valley Nursery and Landscaping in Lincoln City, and at the Samaritan House office - 715 NW Bay St. in Newport. Tickets also are available online at brownpapertickets.com.

More information is available at samfamshelter.org or 541-574-8898.
