

## Internships

### OMSI Internships Deadline: Multiple

Our internships are built with you and your professional goals in mind.

Our program is competitive, but we're eager to hear from you. Our unpaid internships are typically 12-week commitments.

Hoping to get credit? Contact your advisor or department chair to inquire about your school's policy and procedures for awarding credit for internships.

### U.S. Fish and Wildlife Service Deadline: Multiple

The new Internship Program provides students in high school, college, trade school and other qualifying educational institutions with paid opportunities to work in agencies and explore federal careers while completing their education.

The Recent Graduates Program provides developmental experiences in the federal government. It is intended to promote possible careers in the civil service to individuals who, within the previous two years, graduated from qualifying educational institutions with an associate, bachelor's, master's, professional, doctorate, vocational or technical degree or certificate from qualifying educational institutions.

### National Science Foundation Deadline: Multiple

NSF funds a large number of research opportunities for undergraduate students through its REU Sites program. An REU Site consists of a group of 10 or so undergraduates who work in the research programs of the host institution. Each student is associated with a specific research project, where he/she works closely with the faculty and other researchers.

Students must contact the individual sites for information and application materials. NSF does not have application materials and does not select student participants. A contact person and contact information is listed for each site.

### EPA Environmental Research and Business Support Program Deadline: Multiple

This program provides opportunities for exceptional undergraduate and graduate students and recent bachelor's, master's and postdoctoral STEM graduates to work in the U.S. Environmental Protection Agency's (EPA) Office of Research and Development (ORD) research and administrative projects at multiple EPA laboratories and research centers.

ORAU manages the EPA Environmental Research and Business Support Program under the Student Services Contracting Authority. Selected applicants will become temporary employees of ORAU for the duration of the assignment, up to five years.

### EPA Internships Deadlines: Multiple

EPA internships and fellowships provide a great introduction to our work. Internships, fellowships and other opportunities are available at our Washington D.C. headquarters, in our 10 regional offices, and at our labs and research centers throughout the nation.

EPA hires high school and college interns for administrative/clerical positions as well as technical positions in areas such as life sciences, program or policy analysis and engineering. Most positions have salaries ranging from the GS-2 to GS-7 level. All internships paid by EPA appear in the government-wide USAJobs.gov portal.

## Scholarships

### Catching the Dream Deadline: Sept. 15

CTD's objective is to recognize and reward outstanding student achievement. All awards are based on merit, academic achievement and ambition. Students must attend a college or university on a full-time basis, seeking a bachelor's degree or higher.

Catching the Dream scholarships are awarded for life. If you win, you will never have to apply again. If you are not selected for scholarship with CTD, however, you cannot apply again.

### Xerox Minority Scholarship Deadline: Sept. 30

Xerox is committed to the academic success of all minority students. That's why we offer a Technical Minority Scholarship that awards between \$1,000 and \$10,000 to qualified minorities enrolled in a technical degree program at the bachelor level or above.

### Carol Jorgensen Scholarship for Environmental Stewardship Deadline: September

This scholarship provides funds to a full time student pursuing an undergraduate degree in an environmental stewardship discipline, including environmental studies, natural resource management, the natural sciences, public administration, public policy, and related disciplines.

### Ernest F. Hollings Undergraduate Scholarship Program Deadline: September 2016 to January 2017

This program provides successful undergraduate applicants with awards that include academic assistance (up to a maximum of \$9,500 per year) for full-time study during the nine-month academic year; a 10-week, full-time internship position (\$700/week) during the summer at a NOAA facility; and academic assistance (up to a maximum of \$9,500) for full-time study during a second nine-month academic year.

The internship between the first and second years of the award provides the scholars with hands-on practical educational training experience in NOAA-related science, research, technology, policy, management, and education activities.

### Educational Partnership Program Undergraduate Scholarship Program Deadline: September 2016 to January 2017

This program provides scholarships for two years of undergraduate study to rising junior undergraduate students majoring in science, technology, engineering and mathematics (STEM) fields that directly support NOAA's mission. Participants conduct research at a NOAA facility during two paid summer internships.

Students attending Minority Serving Institutions as defined by the U.S. Department of Education (Hispanic serving institutions, historically Black colleges and universities, Tribal colleges and universities, Alaskan Native-serving institutions and Native Hawaiian-serving institutions) are eligible to apply for the program.

## Other Opportunities

### The Student Conservation Association

Are you a high school student who is passionate about conservation? Do you like working as part of a team to get things done? Join an SCA Community or National Crew and plug yourself into SCA's nationwide network of young conservationists – thousands of students who are as passionate as you are about preserving wildlands, protecting nature in urban areas and keeping the planet green.

SCA offers a range of programs for youth ages 15-19. Whether you want to serve in your local community or explore public lands across the country, SCA has something for you.

### The SMART Competition

This program engages students in a real-world technology education challenge designed to combine academic relevance, education achievement and applications of technology. The competition helps develop workforce and life skills, including computer analysis and software design, verbal and written communication, research, teamwork and problem solving.

Students will achieve an increased awareness of the smart grid, green building design, the environment, community, livability and sustainability-related issues.

### Student Laptop Program 2016

The Central Administration office will accept applications for the Student Laptop Program beginning Aug. 1, 2016. **Early applications will not be accepted.**

This program is specifically for higher education and AVT students who meet the following eligibility requirements and have not previously received a student laptop.

- Must be an enrolled Siletz Tribal member
- Must provide copy of current term class schedule of six credit hours or more
- Must provide an unofficial transcript/grade report of successful completion of two consecutive part-time or full-time (six credit hours or more) quarters/semesters of higher education/AVT program with a minimum 2.0 GPA
- Proof of residence required

Applications are available on the Tribe's website or by contacting April Middaugh at 800-922-1399, ext.1201, or 541-444-8201.
