

JANUARY IS HUMAN TRAFFICKING AWARENESS MONTH

WHAT IS HUMAN/SEX TRAFFICKING?

Human trafficking is modern day slavery and involves the use of force, fraud, or coercion to obtain some type of labor or commercial sex act. Victims are tricked into servitude by being:

- Recruited or lured under false pretense concerning work and/or education.
- Subjected to physical and/or psychological abuse.
- Unable to come or go, and/or quit.

Human trafficking can happen to anyone, but statistics show that people of color and LGBTQ2S individuals suffer the highest rates of victimization. These populations are made vulnerable through centuries of generational trauma, historic oppression, discrimination, and racism. Social and economic inequities play a significant role in their victimization. (STRONG HEARTS)
