ed to subscribe \$30,000 of the \$150,
000 required to build the Salem
Silverton railroad. Eastern capitalists
will furnish the \$120,000.

A young lady, of Spicer Or. at-
tempted to start a fire, using coal oil
as a means to hasten matters. An
explosion was the result and the
young lady was badly burned.

The trotting match at Cityview
racetrack last Saturday between
Alta and Kitty Ham resulted in a
victory for the former, in three
straight heats. Time 2:23, 2:21 and
2:27.

We have made arrangements by
which we will be enabled to give
the Albany price current for wheat
farmers can rely, on our quotations
as they will be corrected every
week.

It is currently reported that the
young man who escaped from the
state reform school near Salem last
week is Hal Miller, a son of
Joaquin Miller, the poet of the
Sierras.

Polk Thomas, Hub. Bilyeu, Wm
Bilyeu, Ira and Henry Bilyeu, all
started for Quartzville Monday,
with the intention of locating
claims. They expect to be gone
about ten days.

Manager Koehler, says the
Oregonian, has fully decided to dis-
continue the running of local trains
from Salem to the state fair grounds
during fair week, because several
years' trial has proven that such
service is not remunerative to the
company.

The motor for the new electric

motor line from Independence to
Moonmoth arrived in Portland on
Saturday, says the Albany Herald
and was forwarded to Independence.
Everything was in readiness for
operation as soon as it reached its
destination.

State Superintendent E. B. Mc-
Elroy has received the appointment
by the executive committee and
president of the National Teacher's
association, as one of the six com-
missioners to represent the United
States in the educational depart-
ment of the World's fair in 1892 at
Chicago. This is quite an honor to
Oregon's superintendent.—Democrat.

Mr. John Simpson has secured
control of the Scio warehouse and
purposes using it for handling oats
the present season. He is now ready
to furnish you sacks, will treat you
fairly and will always pay the high-
est market price for your grain. The
switch is now being repaired and in
a few days will be ready for cars to
pass over. Call and see him before
storing elsewhere.

Wednesday morning a faint odor
was noticed coming from some-
where around S. M. Daniel's store,
it was thought a sewer was leaking
till Marshall Hagey located some-
thing under the walk, a board was
taken up and Eve Bilyeu's dog was
discovered quite dead, which was
the cause of the disturbance. A rope
was procured, and a small boy was
hired to drag the critter to the bon-
eyard.

The Press desires to establish,
correspondents in various portions of
the "Forks" who will write up news
items for publication from their sev-
eral localities occasionally. We do
not expect every one to be experts
with the pen nor experienced news
gatherers. If any thing transpires
in your neighborhood you think
would be of interest to the public,
just send in the fact and we will re-
arrange and re-write if necessary.

Sunday afternoon William Under-
wood got into an altercation with
Pete Montgomery at W. C. Cassel's
brick yard, near Albany, where both
men were employed. Montgomery
went into a tent to lie down.
Underwood got a pistol, followed
and shot him in the breast, the ball
ranging down-ward, and is thought
to have lodged in his lungs. He is
resting easy. Underwood escaped
and is at large, and the police offer
a reward for his capture.

The Albany Democrat says.—Ed-
win D. Morris, who was found by
his wife who is said to be old enough
to be his mother, at Mehama living
with Lena Guise, a twenty year old
German girl, was examined at Sa-
lem, and held under \$500 bonds to
await the action of the grand jury,
under the charge of bigamy. The
girl was discharged. A local paper
says "the best defense Morris has is
the countenance of the woman who
is prosecuting him."

The La Grande Gazette publishes
this item, which is of especial in-
terest to surgeons: "Some two
months ago John Mummy had his
hand sawed off below the wrist,
which hung only by a shred of flesh.
The attending physicians desired to
cut it off, but Mummy insisted that
it be replaced and dressed as good
as possible. Now the severed mem-
ber has grown together and can be
moved slowly."

The New York Tribune says:—
There is a movement on foot which
if carried on, will give New York an
institution without a rival in this
country. The establishment of a
national university in this city with
an endowment of interest of \$20,000,
000 is proposed. From a friend of
President Rockefeller, of the Stan-
dard Oil Trust, and Rev. McArthur,
it was learned that D. McArthur's
dream of a great Baptist university
in this city seems about to be fea-
lized.

J. A. Bilyeu sent us a com-
munication from Belknap hot
springs while there but on account
of delays of U. S. mail, Mr. Bilyeu
arrived home several days in
advance of the letter. We have
published most of the news items
in former issues. However
we are much obliged for the good
intention. Mr. James Manis is re-
ported to be in about the same con-
dition as when he left here. His
appetite is some better though he is
gradually growing weaker.

The Tables Turned.

The people of Stayton were greatly
excited over the probability of the
Salem Water Co. shutting off the
supply of water which runs the
mills and other machinery at that
place. They investigated the mat-
ter and found that they had the
right of way themselves, and not-
ified the Salem company accordingly,
who turned in and began clearing
out the old channel of Mill Creek for
fear the tables would be turned, and
they would be without water. It
will be remembered that the face
which laps the Santiam above
Stayton and furnishes the water pow-
er for Salem has been the cause
of a standing law-suit for a number
of years' but last year it was decid-
ed in favor of the Salem company.
Hence the shutting off of the water
by the Salem company.

CORRESPONDENCE.

TALLMAN Or., Aug. 21, 1890.
ED. PRESS.

As you ask for correspondence, an
item or two from this locality may
not come amiss. Harvest is pro-
gressing nicely. The fall wheat has
all been threshed, yielding from 20
to 35 bushels to the acre. The spring
grain is about all in the shock and
will all be threshed by the 10th ult.
The prospect for rain during the
present week is causing the farmers
some uneasiness.

Mr. Harv. Wallace lost a valuable
horse a few days ago. Colic was the
trouble.

Messrs. Hammack & Smith of Tal-
lman warehouse are kept quite busy
now-a-days receiving grain. By
fair dealing they have made them-
selves quite popular among the
farmers.

Jesse Swank wears a 7x9 counte-
nance now-a-days. Cause why he is
a father. Mother and child doing
well.

Miss Helen Crawford and Mrs. Dr.
Littler of Albany, have been visit-
ing in this neighborhood during the past
week.

Harry Noel formerly of Albany, is
now punching tickets on one of the
Oregonian railroad trains.

Several teams are now engaged in
hauling straw to the Lebanon paper
mills.

Indication are that there will be
several weddings in our neigh-
borhood before the year grows much
older. Go in boys, you can't marry
younger.

NEMO.

A Practical Move.

The records of Marion county,
Or. shows the platting of many
thousand acres of land in small
tracts of from 5 to 10 acres; capital
city Fruit Farm of 640 acres, Sun-
nyside, number 3, 500 acres, and
a number of others have been
placed on the records by the Ore.
Land Company of Salem, Ore. This
company is also doing business in
Portland and Albany, and has for
sale numerous other small tracts.
The great advantage of this plan is
that it brings together in one com-
munity the class of people who are
all engaged in the same business,
viz: fruit growing. Consequently
there springs up large drying and
canning establishments, similar to
those in the City of Salem, which
advantages make profitable market
for the products of these fruit
farms. Consult your interest by
buying of the Ore. Land Company
of Salem, Portland or Albany.

Grain Market.

For the benefit of the farmers we
have made arrangements by which
we will receive each week, from a
wheat merchant in Albany, market
quotations that may be relied upon.
The following explains itself:

ALBANY Ore, August, 20.

ED. PRESS.

Albany prices to day are, wheat
65c, oats 36c. Portland quotations:
wheat, 1.27 1/2 cent. The rise in
freights absorb all the rise in wheat
so that market is not as strong as
advances abroad would warrant. San
Francisco remains firm with good
undertone.

The Lecture.

We listened with pleasure to a
lecture Thursday night at the M.
E. church, delivered by Miss
Buzzell, in the interests of Chinese
missions. Miss Buzzell is a very
pleasing speaker. Her residence of
several years at the mission of
Swartehou makes her so familiar
with Oriental manners and customs
that her descriptions of them were
quite vivid. Miss Buzzell speaks
the Chinese tongue fluently, and
with ease. According to her state-
ment the cause of christianity is
slowly but steadily gaining ground
in the Celestial Empire.

Arriving.

Johnson Hibbler & Co. have re-
ceived and are now receiving the
largest and best selected stock of
clothing for men, youths, boys,
and children that can be found in
this part of the valley; and at prices
that defy competition. Their line
of gents furnishing goods also is
large, and selected with a view to
please their customers. You are
cordially invited to inspect their
new lot of fine dress overcoats, from
which the most fastidious can be
suited.

Married.

At the residence of the bride's
parents in this city Sunday, at 10
o'clock, Mr. Lee Welch and Miss
Anna Goins. Only a few friends
witnessed the ceremony, which
was conducted by Rev. N. L. New.
The newly wedded couple went to
Salem the following day, where in
future their home will be. Mr.
Welch is a carpenter of Salem, and a
most estimable young man. The
Press wishes them the choicest
blessings, of which they are in every
respect deserving.

Died.

At the home of her brother-in-
law Albert Compton, three miles
south west of Scio, on Tuesday,
August 19, 1890. Mrs. Mamie Glis-
han, of consumption. She leaves
many relatives and friends to
mourn her loss.
