Josephine will receive school fund

The Division of State Lands (DSL) was to distribute approximately \$25 million from the Common School Fund, (CSF), at the end of December 2002, including a one-time supplemental distribution of \$17.7 million for use by K-12 public schools.

Josephine County -- with a population of 16,733 -- will receive \$511,770.71.

The supplemental distribution was ordered earlier this year by the third special session of the Legislature. The funds will come from revenue deposited in the CSF during the past 50 years from activities such as waterway leases, permit fees and fines.

The remaining \$7.3 million allocation comes from earnings on the CSF. County treasurers will forward the funds to school districts within two weeks of receipt.

DSL distributed \$7.8 million from the CSF for schools in June. By law, the funds are dedicated to "support and maintenance of common schools in each school district." County population ages 4-20 determine each county's share of earnings, said DSL.

The Oregon Constitution established the State Land Board (SLB) as trustee of the CSF. DSL is the administrative agency of the SLB, composed of the governor, secretary of state, and state treasurer

At statehood, the federal government granted Oregon roughly 6 percent of the new state's land for the use of schools. The Constitution dedicated the school lands and their mineral, timber and other resources to CSF.

The state treasurer and Oregon Investment Council invest in the fund. Fund values in recent years have ranged from \$600 million to \$800 million, depending on market conditions.

Twice a year, earnings from investments are distributed to counties for the support of schools according to a formula established by SLB.
