Illinois Valley News, Cave Junction, OR 97523, February 19, 2003

I.V. Airport board holds special meet

By SAM NEWTON

A budgetary request from the Josephine County commissioners for a proposal on the current Airport Layout Plan (ALP) and general improvements spurred a special Illinois Valley Airport Advisory Board meeting on Monday evening, Feb. 17 at Illinois Valley Airport.

A workshop held on Feb. 3 was attended by the commissioners, Federal Aviation Administration, Oregon Dept. of Aviation, I.V. Community Response Team, advisory board members and I.V. Airport Support Group (IVASG). It was agreed that a subcommittee, suggested by Commissioner Jim Brock to look into the possibility of changing the ALP, is unnecessary.

Commissioner Harold Haugen stated that he wanted a proposal right away and didn't want to wait for a subcommittee to make a decision before completing budget plans.

IVASG submitted an alternative proposal for consideration outlining the possibility of returning the I.V. Airport to its previous designation of Airport Approach Category (ARC) B and Airplane Design Group II and Far Part 77 category of "Utility" while maintaining the building restriction line (BRL) on new construction at 390 feet as a Josephine County Illinois Valley Airport Policy. (The ARC B-II represents small and medium-size business aircraft such as twin-engine turboprops.) The "utility runway" category would accommodate aircraft weighing less than 12,500 pounds.)

After much discussion and with some dissension the board approved the decision to investigate the possibility of changing the existing ALP.

A proposal will be submitted to the commissioners for budgetary consideration.

The board also elected Don McLennan as chairman; Lou Levison as co-chairman; and Alan Jensen as secretary. The next meeting will be held on Thursday, March 20 at 5 p.m. at the airport.
