Public input requested for Biscuit Fire Recovery effort

In the next phase of the Biscuit Fire Recovery effort, the Siskiyou and Rogue River National Forests are requesting public input on timber salvage logging, conifer planting, fuels treatments, road closures or improvements and meadow management projects.

An Environmental Impact Statement (EIS) being prepared by the U.S. Forest Service will focus on providing commercial wood products, restoring and protecting late-successional forest and meadow habitats, restoring and maintaining water quality, and reforesting conifer stands within the are burned by fire.

Projects are also proposed to reduce the risk of catastrophic wildfires to communities and private lands, to study the recovery of post-fire environments, and to learn about the effects of post-fire activities, such as salvage logging.

During this scoping phase, the public can address proposed activities by providing site-specific input.

For more information, phone 471-6500 or go to www.biscuitfire.com.
