Vacant home scorched in **GP** blaze

The Grants Pass Dept. of Public Safety (GPDPS) responded to a structure fire on Monday, May 5 at 1322 NW "F" Street.

Arriving firefighters discovered heavy smoke coming from the rear of a two-story single-family home located at the top of a long, steep driveway. Firefighters located the source of the fire near a room addition being built onto the back of the two-story structure, according to GPDPS.

Firefighting efforts were hampered by an arcing power line down across the driveway at the rear of the house. Pacific Power and Light Co. was called out to shut of the power at the pole. Once the power was shut off firefighters were then able to directly attack the fire which took approximately 30 minutes to control, said GPDPS.

The fire was confined to one bedroom and the room addition. No one was home at the time. The cause of the fire is under investigation.

Tips for booze vendors; look for bogus ID's

Grocery store clerks, bank tellers, food servers, cashiers, peace officers and bartenders have something in common: They're constantly checking ID cards.

Liquor licensees and their employees must verify if someone is at least 21 before selling them alcohol, so inspecting IDs is a crucial part of their job. That's why the Oregon Liquor Control Commission offers brochures and dozens of classes a year on ID checking. In Oregon, acceptable IDs includes a valid state drivers license, state-issued ID card, valid military ID or passport. In an OLCC ID-checking class, students learn about liquor licenses, identifying miIllinois Valley News, Cave Junction, OR Wednesday, May 21, 2003
