(Editor's Names, ages, addresses, incidents and charges are provided by official law enforcement agencies. All persons listed in this report are innocent until proven guilty in a court of law. Charges can be amended or dismissed.)

Tuesday, July 1 \*In the 250 block of Crest Drive a man said that

his trash can was missing. He was concerned about identity theft.

\*A woman at Illinois Valley Family Resource Center said that a man was seeking emergency funding after his house burned. When he was refused because he didn't have a family, he slammed the door. Deputies were to contact him about his conduct.

\*There was a report of

a \$305 "bad check" at Lake Selmac RV Resort at 9:28 a.m.

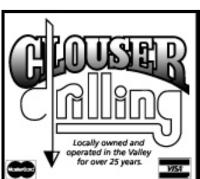

\*Along Illinois River a man said that a wallet removed from his vehicle contained credit cards, identification and \$24.

\*In the 24000 block of Redwood Hwy. a woman said that she took a handful of vitamins, antibiotics and diet pills because she was "losing everything; her kids, her home and her friends." She was taken to Three Rivers Community Hospital in Grants Pass.

\*In the 400 block of S. Junction a woman said that a man came into her business and asked if she could recommend any good pastors. He said he was "hurting everyday and hurting all over." Deputies were unable to locate him.

\*In the 100 block of S. Redwood Hwy. a woman said that an elderly woman described "so much pain she wanted to kill herself." Deputies said she was upset over a recent surgery.

## **Port Orford SEIS remarks** due Sept. 12

The U.S. Forest Service and Bureau of Land Management (BLM) are asking for comments from the public on a recently released draft Supplemental Environmental Impact Statement (SEIS). The federal agencies are proposing to amend their respective Land and Resource Management Plans with new standards and guidelines for the management of Port Orford cedar trees and the root disease Phytophthora lateralis.

The SEIS covers public lands within the Coos Bay, Medford and Roseburg BLM districts and the Siskiyou National Forest. The public comment period will end on Sept. 12.

The Port Orford cedar tree is native to southwestern Oregon and northwestern California.

For the last 50 years, a disease which attacks the roots of the trees has been affecting the population.

Once a tree is infected. the disease is almost always fatal. The disease is spread by spores that travel in water or mud. Natural forces such as runoff, erosion and animal movement, as well as human activity, can spread the

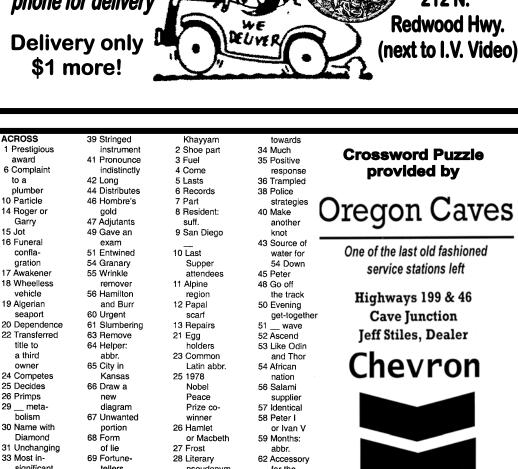

The draft SEIS, now out for public review, considers five alternatives for future maintenance of Port Orford cedar.

Details about the project, including a downloadable copy of the draft SEIS are available www.or.blm.gov/planning/ Port-Orford-cedar SEIS/ and can also be reviewed at many libraries in the region and at BLM and Forest Service offices in Grants Pass.

Comments should be sent to: Port Orford cedar SEIS Team, P.O. Box 2965, Portland, OR 97208.
