## St. Patrick of the Forest Catholic Church

When we gather on the 26th Sunday in Ordinary Time, we will focus on the ninth chapter of Mark where Jesus talks about sin, stating that if a person causes another to sin, "It would be better for him if a great millstone were put around his neck and he were thrown into the sea."

Jesus also makes it clear that there is a "Gehenna" (a "Hell") where people may go as a result of their sins. It is described as a place where "their worm does not die, and the fire is not quenched."

We, as Christians, believe that there is such a place, but we also believe that such suffering can be avoided by rejecting sin and living our lives according to God's laws.

## Discovery May End Heartburn For Millions

WASHINGTON — Research indicates that a new type of chewable tablet containing an extract of deglychirized licorice (DGL) may actually strengthen the body's reaction to acid naturally. Medical experts say that GI problems are not the result of excess acid, but the body's inability to deal with it. This chewable tablet is available over the counter and is called Cibaban DGL™.

Cibaban DGL not only works on stomach acid immediately but also addresses the underlying causes of digestive problems. Studies appearing in a British medical journal have shown that DGL works effectively like Zantac®, Tagamet® and/or antacids without all the side effects.

The problem with antacids is that they actually disrupt or interfere with normal digestions. Cibaban DGL is a natural alternative to antacids or acid blockers and is available at pharmacies and nutrition stores without a prescription.
