Weight Loss Puzzles Doctors

Inc.

ATLANTA, GA -- Doctors were surprised when two separate studies found that a natural dietary supplement could help cause significant weight loss.

Although not conclusive, both studies found that patients receiving the formula called Bio-Rex 3000®, lost more than twice as much weight as those in a control group on the same fat reduced diet. Neither group was instructed to decrease the amount of food they ate or to increase their exercise levels. An article published in the American Journal of Clinical Nutrition says that you don't have to decrease the amount of food you eat to lose weight, provided that you limit the fat.

According to a spokesperson for Phillips Gulf Corporation, the exclusive North American distributor of Bio-Rex 3000, the company is considering additional studies in order to get federal approval to make pharmaceutical claims. Currently, weight loss claims for the Bio-Rex 3000 supplement are limited. However, with the requisite approval, the company could say that Bio-Rex 3000 decreases sugar cravings, increases metabolism and interferes with the body's ability to produce excess fat.

Bio-Rex 3000 is currently available as a dietary supplement and plan in pharmacies and nutrition stores or by calling 1-800-729-8446. www.hcdsales.com..
