mold of human degradation. From the Middle East to the Far East, from Africa to the Americas big rats in high places scurry about, leaving a plague of death, destruction, hunger and immense sorrow. Most folks get rid of the rats in their houses.

It seems we need a massive and immediate house cleaning. Who is going to pick up the broom and start sweeping?

It also appears that a lot of folks just don't want to get dirty and would rather play Ostrich, which reminds me of the saying, "Bad things happen when good men do nothing."

Maybe long ago war was not a necessary part of the equation. When it became so is unclear to me. Maybe it was the first time it was said, "Yes, we have no bananas," that set it off. I just don't know. All I do know is that in my mirror I see a man who hopes and prays for peace and is grateful that there are those who are willing and able to preserve it.

Since a Social Security number is now assigned to every person at birth, no contract has been signed by that person. Therefore, if that person never uses that number after the legal age of 18, they are not "wards of the government" or "taxpayers," there is no

contract.

The Social Security contract gives 108 benefits to the person (ward) in return for Social Security and income tax payments.

The terms of any contract control because contract terms take precedence over general law such as the U.S. Constitution.

The problem today in the year of our Lord 2003, the loss of our freedoms and rights, is caused by the making of contracts with the state, in violation of the common law.

Some of these contracts are licenses such as marriage, business, professional, driver, etc. Also "permits" such as building, well drilling, etc. from the state are contracts. Even registration with the state as an ordained minister is a contract that subjects the minister to punishment for teaching the Ten Commandments or for disobeying any of the laws (contract terms) of the state.

For a church to incorporate is a sin since this places another "god" or power over the Lord our God.

Exodus 20:3, "Thou shalt have no other gods before me."

This deviation from the common law has produced the admiralty tyranny we live under today.

The only thing that will save us is to obey the Ten Commandments, and the laws, precepts, and judgments of God.
