ered in the seeding process to prevent damage and flooding.

Despite the problems, construction is still pushing toward completion.

"We will be able to use the new field for games this fall," said Krouse. "There is still some drainage installation needed, and we have to wait until spring before planting more grass in the field and on some of the surrounding banks.

"We are also awaiting purchase of a new set of bleachers, similar to two portable sets we already have."

"The lights are in; the scoreboard is operating; the field irrigation system is in; it has been planted, and it's looking real good," said Thornhill.
