\$3.6 million **Head Start** grant told

"Head Start programs help put Oregon kids on the right track for life," said U.S. Sens. Ron Wyden (D-Ore.) and Gordon Smith (R-Ore.).

"Funding proven educational programs like this one is the right way to bring a brighter future to children and families across our state," they said.

Wyden and Smith announced that Southern Oregon Child and Family Council Inc. in Central Point will receive a \$3.6 million grant from U.S. Dept. of Health and Human Services to help fund Head Start projects.

It serves children from birth to age 5 and prepares them for success in school. Head Start offers assistance with early childhood development, medical and dental care, and parental involvement.

"Aside from preparing Oregon's kids for life and education, Head Start is a place where youngsters can get some valuable health services," said Smith. "Southern Oregon has a real need for these programs and these funds will go a long way for deserving children."

Corridors for safety highlighted

Safety corridors are stretches of state and local highways with incidences of traffic crashes higher than the statewide average for that type of roadway.

One such corridor is that section of Hwy. 199 from a short distance north of the Wilderville exit to a point a bit north of the Josephine County Fairgrounds in Grants Pass. Three persons have died in three crashes on that section of the highway during the past two months.

Traffic fines in safety corridors doubled, and such corridors are always identified with signs, said Oregon Driver and Motor Vehicle Services (DMV). In most cases, drivers are asked via signs to turn on their headlights for increased safety.

Drivers also are asked, said DMV, to pay extra attention and carefully obey all traffic laws when driving in such areas.
