Downtown mural endorsed by CJ City Council

Artisan and community input sought for beautification project by artist Libby Goines

By MICHELLE BINKER Staff Writer

An Illinois Valley artist with a big vision has an idea to bring art into the public sphere.

Libby Goines, an artist, singer and manager of A Creative Space Art Collective, is spearheading an idea to create a large mural on the side of the building at 119 S. Redwood Hwy.

The building, next to CJ Select Market, houses

Goines addressed the Cave Junction City Council during its regular meeting, Monday night, March 29 in city hall.

She sought the council's blessing for the project idea, as the mural would become a dramatic focal point for downtown.

"I know that this will be a wonderful thing for

the city," Goines said. "As much as possible, and with community input, I'd like to see something that everyone will like."

Mayor Ed Faircloth spoke approvingly of the concept.

"I think it's an ideal project," Faircloth said. "If we get one (mural) in town, maybe it will generate some interest from other businesses."

The council approved

the concept in a 4-0 vote. Councilman Sandi Lund was not present.

The idea has "rock solid" approval from the building's owner, Matt Dotson, and the other building tenants, according to Goines.

She is asking artists and community members to contact her at A Creative Space, 592-6484, with ideas and input regarding the project.

Mental health, Keeping power lines clear extremely important

Pruning tree branches and foliage away from power lines is a continuing priority at Pacific Power, the utility said.

"Trees that grow too close to power lines cause hazardous conditions that can interrupt service," said Pacific Power. "We hire professional arborists to

maintain safe corridors around power lines.

"If you have a tree that is growing too close to power lines, phone (888) 221-7070 to have it pruned at no cost," noted the utility. "We will compile a report, and an arborist might stop by to assess the situation before a crew is

dispatched."

To reduce the need for future tree work, "It's best to plant low-growing trees near power lines.
