

Nondriver or not, law nips drunks

Just because they have a designated driver, nondrivers shouldn't expect to get roaring drunk in an Oregon restaurant, bar or nightclub.

Liquor licensees remind customers that it is against Oregon law (ORS 471.412) for them to serve alcohol to a visibly intoxicated person (VIP).

This was recommended during a recent meeting of the On-Premises Liaison Committee of the Oregon Liquor Control Commission (OLCC). The panel meets quarterly and is made up of restaurant, tavern and cocktail lounge owners, plus other liquor licensees.

One licensee said that bar patrons sometimes use their designated driver as an excuse to get drunk, but she reminded that servers have the responsibility to refuse a drink to someone who is intoxicated.

"One designated driver shouldn't mean three designated drunks," the tavern owner said. The law also requires servers to make a good-faith attempt to remove an unfinished drink from an intoxicated customer.

Servers are licensed by OLCC and may be fined up to \$350 for providing drinks to a VIP. On top of that, the licensee may be fined \$1,650 for the same violation.

Import Rx bill backed by AARP

AARP has announced its endorsement of a bipartisan bill now before Congress to legalize the safe importation of prescription drugs, beginning with Canada.

"We believe this bill is another important step to help lower drug prices, and we are going to work aggressively for passage," said AARP Oregon State Director Jerry Cohen. "It's a disgrace that many Americans - including Oregonians - have to get affordable medication from outside the United States.

"This bill represents another step in our efforts to rein in the high costs of prescription drugs. Our members need relief from these out of control drug prices, and allowing them to buy drugs legally from Canada or other countries could help lower prices," said Cohen.

The bill, S. 2328, sponsored by Sens. Byron Dorgan (D-ND) and Olympia Snowe (R-ME), together with 23 co-sponsors, will allow consumers and pharmacists to legally purchase safe prescription drugs, beginning with Canada. The Dorgan-Snowe legislation contains critically important safety standards urged by AARP, including a system of registration, inspection and tracking of imported drugs; anti-tampering and anti-counterfeiting technologies; and labeling of imported drugs.

The legislation also includes a requirement for a website, and a toll-free telephone number that consumers can use to locate reputable sites for the purchase of imported drugs.
