The "spring up, fall out" phenomenon says children grow twice as fast in the spring as they do in the fall, while they gain more weight in the fall.

In all of history, the most destructive disease is malaria. More than 1.5 million people die from malaria every year.

The ability to firmly grip with your hand comes from the muscles in the forearm. The muscles pull on tendons in the hand, bending the fingers.

The skeleton of an average 160-pound body weighs about 29 pounds.
