Clubs & Groups

Illinois Valley Garden Club

The club will try something a bit different for Friday, May 18, as instead of a gathering with a speaker there will be an "Illinois Valley Garden Club Floral Display."

The meeting will be from 11 a.m. to 3 p.m.. The public session will begin at noon.

Flowers can be brought in their own containers. Identification cards will be available. It will be a flower show that isn't a flower show. Arrangements and potted plants can be brought.

Have you noticed that we are getting different birds in the valley this spring?

Even the regulars came in early and in larger numbers. It has been great to see all of them. The other day we had the pleasure of seeing young Wood ducks leave the nest.

The club meets on third Fridays from September to May at Immanuel United Methodist Church at 200 W. Watkins St. in Cave Junction.

Coffee time begins at 12:30 p.m., and the meeting at 1. Anyone can attend. During July and August members are busy in their gardens and with the county fair.

The June meeting is a members picnic at an undecided location. For more information phone 592-3239 or 592-4257.

Senior citizen applications for farmers market checks must be submitted soon

Thousands of Oregon's senior citizens benefit from a federal nutrition program, and 2007 regulations require participants to return an application to receive farmers market checks.

During 2006, checks were automatically mailed to every eligible senior. Kerbyville Farm, next door to Yanase Jewelers in Kerby, again will be a participant.

Now in its sixth year, the Senior Farm Direct Nutrition Program is provided by the Oregon Dept. of Human Services (DHS) with the U.S. Dept. of Agriculture.

Lauren Mitchell, who coordinates the program for DHS, said that approximately 43,000 Oregon seniors are eligible for this season's program, which will begin June 1 and continue until Oct. 31.

"Ensuring basic nutrition to our seniors and other vulnerable populations is an investment in the health of our state," Mitchell said. "The program not only benefits low-income seniors, but supports farmers markets and farmers."

In early May, the state sent a bright yellow application to eligible seniors. If they choose to participate in the program, they must return the bottom portion of the application to the state.

Beginning in June, each eligible senior who signs up will receive ten \$3 checks for a total of \$30. Senior recipients also may have a designated family member or caregiver shop with their checks on their behalf. Oct. 31 is the last day that seniors may spend Farm Direct checks.

During 2006, \$1.1 million went to farmers whose produce fed nutritionally atrisk families and seniors. For the 2007 season, \$1.04 million has been allocated for the program. Oregon has more than 70 participating farmers markets and 412 farm stands throughout the state.

To be eligible for SFDNP, seniors must be 60 or older as of April 1, 2007. They must receive food stamps or Medicaid as of April 1, 2007; live in a situation where food is not provided; and their monthly income must not exceed \$1,149 for a single person or \$1,541 for a couple.

DEQ lists workshop, hearing about Rough & Ready permit

The Oregon Dept. of Environmental Quality (DEQ) is proposing to issue a new emissions permit for Rough & Ready Lumber Co. on Hwy. 199 between Cave Junction and O'Brien.

DEQ will hold a workshop Wednesday, May 23, to present information and have a discussion about the permit. It will be an informal community session. DEQ will hold a formal hearing Wednesday, May 30 when participants can testify for the formal record.

The workshop and the hearing will be held at Lorna Byrne Middle School in Cave Junction. Both will begin at 6:30 p.m.

Written comments can be submitted any time until Friday, June 8 at 5 p.m.

Rough & Ready operates

a sawmill consisting of a wood-fired boiler and associated gas turbines that are used to generate electricity, eight steam-heated dry kilns and two systems to control emissions from wood waste. The proposed permit is a new permit for an existing source.

The facility began operation in 1979 and has been permitted under a General Air Contaminant Discharge Permit. The proposed permit would allow the facility to increase its capacity.

Pollutant emissions are monitored by production records using emission factors and verified by stack tests at the facility, DEQ noted.

For additional information phone (541) 776-6010, Ext. 237, or Kemmerer.anna@deq.state.or.us
