Critic's Choice

Thursday

10:01 p.m. on NBC (5)

ER: This is a test. This is only a test ... but it's a biggie. A new attending (guest star Kari Matchett, "24") is brought in to spell Morris and Pratt (Scott Grimes, Mekhi Phifer) so they can study for their medical boards. Sam and Abby (Linda Cardellini, Maura Tierney) treat a young woman with mysterious symptoms in the new episode "The Test."

Friday

9 p.m. on CBS (10)

Moonlight: Blood, drugs and a blast from the past ... what's not to love? In the new episode "B.C.," Mick and Beth (Alex O'Loughlin, Sophia Myles) find themselves working together when his current mission — trying to find a powerful vampire who has a history with Josef (Jason Dohring) — turns out to have a connection to the drug-overdose case she's working on.

Saturday

8 p.m. on CBS (10)

CSI: Miami: A major character gets shot; this episode must have been made for sweeps. Calleigh becomes a target in the line of duty, and her ex-boyfriend, an undercover police officer, happens to be on the scene. The case of the week involves the murder of a woman who had just been "sold" in a bachelorette auction for charity. David Caruso also stars in "Going, Going, Gone."

Sunday

9 p.m. on CBS (10)

Cold Case: Hey, it's Pa Walton! Ralph Waite, aka John-Boy's daddy, guest stars in the new episode "World's End," the series' 100th. Lilly (Kathryn Morris) and her team reopen the case of a woman who disappeared in 1938 during Orson Welles' famous "War of the Worlds" broadcast. She and her family were fleeing the Martian invasion that so many were convinced was real.

Monday

8 p.m. on NBC (5)

Chuck: Doesn't everyone want to go to homecoming weekend at a school from which he was expelled? Chuck (Zachary Levi) certainly doesn't, but he's on a mission to help one of his former professors, who's also a government agent. That's only one of the secrets he becomes privy to on this trip, and his world is rocked in the new episode "Chuck Versus the Icelandic Archer."

Tuesday

9 p.m. on FOX (4)

House: This may go down in the show's annals as the "season of secrets." A few episodes back, House (Hugh Laurie) and his fellowship candidates treated a wannabe astronaut who insisted on secrecy. In this new episode, the patient is a CIA agent, and House isn't allowed to know anything about his past assignments or even his medical history in "Whatever It Takes."
