## Firework destroys U.S. Mail

Just after 5 a.m. Thursday, July 2, personnel at the Cave Junction Post Office, at 104 S. Hussey Ave., phoned the Josephine County Sheriff's Office to report smoke coming from a postal drop box.

A police incident report log states that white smoke was coming from the drive-up U.S. Mail box that was not attached to the post office building.

Postmaster Lynn Hval and a manager responded to the scene and opened the mailbox. Illinois Valley Fire District personnel discovered a firework inside with tape around it.

All the contents of the mailbox were destroyed,

JCSO stated.

Hval said that she has contacted postal customers whose mail could be identified. Other postal customers who deposited outgoing mail in the collection box after the last collection time of 3:45 p.m. on July 1 until 5 a.m. on July 2 should leave their name at the counter with a Postal clerk. The contents of the box have been sent to an inspection service, Hval said.

No suspects were located or charged as a result of the incident.

## Church News

### Good Shepherd Lutheran Church

During reunion weekend we see old friends and acquaintances, and catch up on what they have been doing, their jobs and accomplishments.

In Mark, chapter 6, we learn that when Jesus returned to his hometown, people asked who he thought he was, why he was an authority on the word of God, instead of welcoming him and listening to his preaching. Even when he cured the sick, there was still skepticism.

But did this reception deter Him from travelling to other towns and cities to preach the word of God? No. So, if we truly believe in the word of God, we should be messengers of His word regardless of the reception we receive.

Calendar: Thursdays, 4 p.m., *Good Shepherd Singers* rehearse; Sundays, 9:15 a.m., All-comers Sunday School followed by worship and Communion.

### Seventh-day Adventist Church, Cave Junction By Verne & Patty Hyland

Al McDowell, representative for Adventist World Radio, kept the congregation on the edge of their pews as he told story after story of miraculous mission experiences in China, North Vietnam, North Korea, and many other difficult-to-reach areas.

Now these areas are covered with the Gospel message via giant transmitters beaming into these non-Christian countries. The message of a risen, soon-coming Savior is reach-

ing into the darkness of Communism. Letters come everyday to the offices of Adventist World Radio in Washington, D.C. testifying of God's ever-reaching love.

The Vacation Bible School (VBS) staff are meeting to finalize plans for classes, dress rehearsal for those who will depict Bible stories, and preparation for crafts. Registration for VBS is scheduled for Monday, July 20 from 9 a.m. to noon.

Children ages 5 to 13 are welcome to attend and take part in all the fun activities from July 20 to Aug. 1.

The Madrone Adventist Elementary School is accepting kindergarten through eighth-grade students for the 2009/2010 school year. There are some openings for new students.

Contact Amy Whitchurch, head teacher, at 592-3330 or 592-6604 for information concerning this special, highly accredited school.

Each Saturday the church doors are open at 8:30 a.m. for special prayer, at 9:20 the Praise music starts with Bible study time at 9:30. At 10:40 Praise music again, and at 11 the Sabbath Worship Service is held. Anyone can attend, and the service is always followed by a delicious fellowship lunch.

Tuesdays at 7 p.m. an interesting Prayer and Praise meeting is held each week.

Each Wednesday at 2 p.m. an exciting, free Bible Study program is held. Bibles are given away free.

Pastor Hyland tells us about Psalm 121:1 "I will lift up my eyes to the hills, From whence comes my help? My help comes from the Lord, Who made heaven and earth."

## Selling Your Home?

Take a look at your well.  
with Bob Quinn

If you are preparing to offer your property for sale, you might not be aware that the condition of your well could kill your sale to a potential buyer.

Did you know, for example, that your well could be contaminated without causing any symptoms of illness for the members of your household?

Over a period of time people build up an immunity to certain bacteria so that such germs have no ill effect. The process of decontamination involves the use of chlorine and is a relatively simple procedure which we've always been happy to share with any homeowner.

If your pump has had recent service, your pump technician should have chlorinated. If not, you should plan to protect a potential sale of your property by doing it yourself or calling in a service technician.

Just as important to a successful property transfer is a flow test. Most lenders will require a minimum of 5 gpm for 4 hrs. to grant a loan. With some simple instructions you can run this test in advance, so that you don't find out just before escrow closing that yours failed.
