

Illinois Valley High School Salutatorian Shelby Mason

Ranked 4th in the class of 2014 GPA: 4.17

Activities: 9 years of 4-H, 3 years of FFA, soccer, softball, S.M.I.L.E., Mathletes, College Dreams, Interact, senior class treasurer, National Honor Society

Plans: I plan on attending Oregon State University in the fall to pursue a degree in animal science.

Parents: Larry and Trina Mason

First of all, I would like to congratulate the class of 2014 for making it here today. It has been a long, tough road, but we finally made it. Thank you to our friends and family for supporting us along the way.

I still remember our first day of high school. We didn't really know what to expect, but we have made so many great memories throughout these four years together which we will always cherish in our hearts.

But the day is finally here! We are at the beginning of our lives. We get to make our own path to our future.

I want to tell you all that this is your time to shine! Each and every one of you here today is capable of anything you want to achieve in life. So just be remarkable. Make such a great impression on people's lives that they will never forget. Let a flame of passion illuminate your way in life. Be an extraordinary human being. Never settle for anything less than you are capable of, as you move full speed ahead in the quest for a life of your own that is full of light and color.

So, the graduating class of 2014, I am truly proud of each and every one of you who has made it here today. Congratulations.

Shelbie Mason

Illinois Valley High School Salutatorian Brian Bemis

Ranked #5 in the class of 2014 GPA: 4.12

Activities: I am an Eagle Scout and the senior patrol leader for Boy Scout Troop # 880. I am a member of the Order of the Arrow, Boy Scout's National Honor Society. I am in my high school's National Honor Society. I have competed in the Academic Master's competition. I am also part of my high school's Mathletes team.

Plans: I will earn a bachelor's degree in Materials Science Engineering or Electrical Engineering in four to five years.

Parents: Steven and Lynsta Bemis

Good evening. It is difficult to believe that we are standing in front of such a huge change. Graduating from high school is such a large stage in life that up to this point one looked at it as the end of a faraway tunnel that one never expected to reach. Then afterwards, it becomes the remembrance of a past lifetime.

What brought us to this moment? I know it is repetitive, but such repetition proves the importance of recognizing that we could not have reached this instant in our lives without the adults and other people that supported us: our parents, guardians, teachers, mentors, and many others. It also required the willpower to patiently persevere through preparatory problems.

Additionally, there are some things that should be consid-

ered as the next stage of life commences. Keep the mind flexible, because no one knows what paths life will offer. Quite possibly the perfect niche will turn out to be one you have not heard of yet. Do not be afraid to try such a path.

Although there may be times that the multitude of paths will seem to be overwhelming, remember that it is your decision and that it is right to be picky about what your life will become.

However, even if we have the freedom to choose our lifestyle, "the U. S. Constitution doesn't guarantee happiness, only the pursuit of it. You have to catch up with it yourself."-Benjamin Franklin.

Of course, while adventuring on a new path it is very likely that mistakes will be made. This is how learning works. One either learns quickly from a teacher or guide with something akin to a photographic memory, or more likely, through mistakes and a lot of practice. "Good judgment comes from experience, and a lot of that comes from bad judgment."-Will Rogers

Thus, remember the help you received in your life. Remember to keep your mind open when choosing your path and making your mistakes. Thank-you.

2013 IVHS Valedictorian Wellen makes Deans List

Cave Junction Resident, Natalie Wellen Named to Worcester Polytechnic Institute's Spring 2014 Dean's List

WORCESTER, MA (05/29/2014)(readMedia)-- Worcester Polytechnic Institute (WPI) has announced that Natalie Wellen of Cave Junction, Ore., a freshman majoring in mathematical sciences, was named to the university's Dean's List for academic excellence for the Spring 2014 semester.

A total of 1,380 undergradu-

ate students achieved the criteria required for WPI's Spring 2014 Dean's List. The criteria for the WPI Dean's List differ from that of most other universities as WPI does not compute a grade point average (GPA). Instead, WPI defines the Dean's List by the amount of work completed at the A level in courses and projects.

"WPI's academic programs are remarkably rigorous, so being named to the Dean's List is a testament to hard work, a sharp mind, and a commitment to excellence," said Provost

Eric Overstrom. "Some of this nation's best and brightest students come to WPI to learn subjects ranging from engineering to science to business and the humanities, and through our innovative project-based curriculum they conduct professional-level research and solve important problems all over the world. Those named to the Dean's List have excelled at facing such demanding challenges, and we are exceptionally proud of these outstanding students."

About Worcester Polytechnic

Institute:

Founded in 1865 in Worcester, Mass., WPI is one of the nation's first engineering and technology universities. Its 14 academic departments offer more than 50 undergraduate and graduate degree programs in science, engineering, technology, business, the social sciences, and the humanities and arts, leading to bachelor's, master's and doctoral degrees. WPI's talented faculty work with students on interdisciplinary research that seeks solutions to important and socially

relevant problems in fields as diverse as the life sciences and bioengineering, energy, information security, materials processing, and robotics. Students also have the opportunity to make a difference to communities and organizations around the world through the university's innovative Global Perspective Program. There are more than 35 WPI project centers throughout North America and Central America, Africa, Australia, Asia, and Europe.
