

Happy Camp ... Continued from A-1

Falkstein: This fire burned into the Marble Mountain Wilderness, and produced three small spot fires that established in Grider Valley southeast of the fire. Firefighters are scouting the fire to identify and establish locations for possible containment lines.

Kemper: Firefighters have begun holding and securing the fire lines.

Fire Behavior: Fires will continue to display moderate rates of spread. They continue to back towards drainages and retain heat. Uphill runs are predicted as fires align with slopes and wind. The potential for single and group tree torching will remain a threat due to ladder fuels beneath the canopy being pre-heated by ground fire. Roll-out of burning material remains a challenge to containment efforts and has led to the growth of fires.

Weather Conditions: Temperatures will be a few degrees cooler under more stable conditions. Day time winds will be from the north and will align with north south drainages on the Frying Pan and Falkstein fires. Despite lower temperatures, humidity will dip to the

lower 20s. The inversion is expected to break at approximately 5:00 p.m.

Safety: Vehicle traffic along Highway 96 remains a significant risk to the firefighters and community members. Please slow down, limit distractions, and help keep everyone safe when you are driving through the area.

A Clean Air Respite Center is available at the Karuk Tribe Senior Nutrition Center, located at 64101 Second Avenue in Happy Camp. The center is open from 8 a.m. to 5 p.m. daily and will remain open longer if needed due to smoky conditions. For more information about air quality in the area please visit: <http://californiasmokeinfo.blogspot.com/>

An Evacuation Advisory was issued August 13, 2014, at 10 a.m. for residents of Happy Camp along China Grade Road from Elk Creek Bridge to Frying Pan Creek. China Grade Road is open to residents only.

Jacqueline Henry-Ross

Chateau ...

Continued from A-1

Stanton's musical education began at age 5. He studied briefly in his early years at the San Francisco Conservatory of Music and later studied privately for several years with composer and pianist Julian Maurice White. Later he enrolled in Piano Performance and Composition at San Francisco State University with William Corbet Jones in addition to Master classes with Karl Ulrich Schnabel and private sessions with world renowned composer and pianist Robert Helps.

Stanton's performing experience spans 30 years in both contemporary and classical music in venues throughout the western United States and Europe. With music influenced by such artists as Chopin, Debussy, The Beatles, Jean Luc Ponti and a host of others; Stanton has orchestrated arrangements that have been called Smooth Jazz, Modern Classical and New Age. Notable performances include events with Phil Everly of the Everly Brothers, Miles Davis, and Mickey Thomas of the band Jefferson Starship.

Regarding the upcoming performance Henry-Ross states: "I hope our music lifts your spirits, leaving you enchanted with a night of musical romance."

For further information, call the Chateau at 541-592-3400.

Forks ... Continued from A-1

To volunteer for the Adopt-a-Park program, call the IVCDO office at 541-592-4440 or drop into the I.V. Visitor Center where the office is located.

According to OPRD District Manager Ross Kihns, "Oregon Parks and Recreation Department utilizes a vast number of volunteers and simply couldn't maintain Oregon's parks without them. In the longstanding tradition of utilizing volunteers as park ambassadors or hosts we thought we could improve maintenance and visitor services by having a live-in host at Illinois River Forks State Park. Because we match what volunteers want to do with potential geographic areas of interest we can't always guarantee a host will be at IRF, but it's our

intent to try as much as possible."

Anyone interested in volunteering can contact volunteer.info@oregon.gov or call 877-225-9803.

Some problems have occurred at IRF, such as recent complaints by construction crews about attempted break-ins and damage to lawns by individuals "spinning donuts" with vehicles during evening hours.

"I don't think these sorts of thing are rampant problems," Brandt said. "I have talked to hundreds of people at the park during surveys over the past two years and have only met people who enjoy being in outdoor settings and are mostly families taking children for a swim in the river, senior citizens

walking dogs, or groups picnicking."

Brand noted that following the bridge reconstruction about five years ago, residents in Cave Junction can safely walk or ride a bicycle to the park using the new sidewalk.

"The presence of a park host and other park improvements will make this a safe and outstanding recreational destination for residents who are interested in walking or riding their bicycles for exercise," he said. "Cave Junction is one of the few towns in Oregon that has a state park located next door and this gives this community a unique quality of life value that few communities in Oregon can claim."
