## EXTREME HEAT SAFETY CHECKLIST

**1 BE INFORMED:** Check your local forecast and keep up to date on the severity and duration of a heat wave. Information is key!

**2 LIMIT OUTDOOR ACTIVITY:** Limit or avoid strenuous outdoor activity if you can! Take more breaks, wear light colored clothing if you have to be outdoors, and stay out of any direct sunlight.

**3 HYDRATE, HYDRATE, HYDRATE:** Drink more water than usual to stay hydrated no matter where you are (even before you feel thirsty).

**4 CHECK ON OTHERS:** Young children and the elderly are most at risk from extreme heat-related illnesses. Check on those in most need of assistance during extreme heat. Do not leave children unattended in vehicles!

**5 CHECK ON ANIMALS:** Your furry friends need help too! Make sure they have shade, water, and NEVER leave them unattended in a vehicle—EVEN with the windows cracked.

**REMEMBER!** Heat is the #1 weather-related killer. Ensure you and those around you are safe during this time!
