

Tales from the Rural Patrol

(Editor’s Note: Factual information for ‘Tales’ is provided by official law enforcement agencies. All persons listed are innocent until proven guilty in a court of law. Charges can be amended or dismissed.)

Monday, April 16

*Deputies from Josephine County Sheriff’s Office (JCSO) arrested frequent flier Michael Massey near 120 S. Hussey Avenue at 12:14 p.m. Massey, 37, was transported to Josephine County (JoCo) Jail on a probation violation detainer.

*Cari Lee Ginevra, 30, was taken into custody at 1:59 p.m. near Hussey Avenue and Schumacher Street. Ginevra had a felony no-bail warrant for parole violation and unauthorized use of a vehicle, so she was detained in JoCo Jail.

Tuesday, April 17

*David Anderson, 27, was charged with violation of a no contact order and detained in JoCo Jail. (MAGA = more are getting arrested.)

*A man with three JoCo misdemeanor warrants for criminal driving while suspended was arrested near Hwy. 199 and Kerby Mainline Road at 12:57 p.m. Jason Estep, 34, was originally pulled over for

expired registration, but ended up detained in JoCo Jail.

*Melissa Lowenstein, 51, was screaming at children in Jubilee Park at 3:04 p.m., so she was detained in JoCo Jail for second-degree trespass. Her trespass from the park was extended for another year. (Pencil in that date, it’s bound to change.)

*A fugitive with a felony warrant from Grants Pass Department of Public Safety (GPDPS) was apprehended at 4:11 p.m. in the 200 block of S. Redwood Hwy. Richard James Ocoyne, 46, was wanted for probation violation for possession of meth.

Wednesday, April 18

*A gal in the 300 block of S. Kerby Avenue requested extra patrols at 9:38 a.m. A creepy guy was threatening her and broke some property, and he usually jumps the fence between her property and the Junction Inn.

*A resident in the 400 block of Addison Lane was shocked to receive a text message with a hyper-link to child pornography at 10:31 a.m. She will seek assistance from Verizon to remove the information from her phone, and she will report the incident to the Federal Trade Commission.

*On April 14 two miscreants

approached Options for Southern Oregon in the 300 block of Caves Hwy. at 5:35 p.m. One rode a blue tricycle with a black dog in a basket, and the older rode a silver-colored bicycle. After smoking a pipe, one guy held the flame of a lighter under a video camera and melted the lens. Very clear images were retrieved of the jerks’ faces. A report was filed for second-degree criminal mischief.

*Folks were in Arizona when they learned that there was trouble brewing at their house in the 1500 block of Crooks Creek Road. While they were away, a window was smashed out of their car, and ne’er-do-wells broke in through a sliding glass door. (It’s a street name, not a life goal.)

Thursday, April 19

*No reports. (No one wants to be in jail for 4-20.)

Friday, April 20

*A brat on a bicycle was antagonizing a trained guard dog in a fenced yard in the 900 block of N. Old Stage Road at 10:34 a.m. (Don’t poke a sleeping Great Dane.)

*Bungling burglars didn’t take much from the 200 block of McMullen Creek Road, but they left behind soda and beer cans, as well as their burglary tools. (You had one job.)

Saturday, April 21

*A gal in a gray sweatshirt and pink yoga pants was smoking pot and swearing and yelling at everyone in the 200 block of N. Redwood Hwy. at 1:40 p.m. (Hempover?) She left willingly at 3:15 p.m. when a deputy told her she was trespassed from the shopping center.

*The volatile vixen in pink yoga pants reappeared and was causing a scene in Jubilee Park at 4:14 p.m. Paula Mattingly was detained in JoCo Jail for second-degree disorderly conduct.

Sunday, April 22

*Neighbors noticed when a homeless couple kicked in a door in a vacant house in the 700 block of Caves Hwy. at 10:24 a.m. Laura O’Grady was warned for trespass.

*Laura O’Grady, 51, returned to the house in the 700 block of Caves Hwy. at 11:57 a.m. The grouchy gal said she would kill people if they showed up. At 12:04 p.m. she was arrested for first-degree criminal trespass and detained in JoCo Jail

*Melissa Lowenstein was checking her turf in Jubilee Park at 1:11 p.m.

Flipping a light switch. Plugging in a coffeemaker. Charging a laptop computer. These are second nature for most of us. Electricity makes our lives easier. However, we need to be cautious and keep safety in mind.

SAFETY TIPS

- Have all electrical work done by a qualified electrician.
- When you are buying or remodeling a home, have it inspected by a qualified private inspector or in accordance with local requirements.
- Only use one heat-producing appliance (such as a coffee maker, toaster, space heater, etc.) plugged into a receptacle outlet at a time.
- Major appliances (refrigerators, dryers, washers, stoves, air conditioners, microwave ovens, etc.) should be plugged directly into a wall receptacle outlet. Extension cords and plug strips should not be used.
- Arc-fault circuit interrupters (AFCIs) shut off electricity when a dangerous condition occurs. Consider having them installed in your home.
- Use ground-fault circuit interrupters (GFCIs) to reduce the risk of shock. GFCIs shut off an electrical circuit when it becomes a shock hazard. They should be installed inside the home in bathrooms, kitchens, garages and basements. All outdoor receptacles should be GFCI protected.
- Test AFCIs and GFCIs once a month according to the manufacturer’s recommendations. You do not need a flame to start a fire. Fires can start when heat builds up near things that burn. This can happen when a hot light bulb is near things that burn, such as cloth or paper, or a cord has been placed under a carpet.
- Check electrical cords to make sure they are not running across doorways or under carpets. Extension cords are intended for temporary use. Have a qualified electrician add more receptacle outlets so you don’t have to use extension cords.
- Use a light bulb with the right number of watts. There should be a sticker that indicates the right number of watts.

IMPORTANT REMINDER

- Call a qualified electrician or your landlord if you have:
 - Frequent problems with blowing fuses or tripping circuit breakers
 - A tingling feeling when you touch an electrical appliance
 - Discolored or warm wall outlets
 - A burning or rubbery smell coming from an appliance
 - Flickering or dimming lights
 - Sparks from an outlet
