## LEE MARCUS

Only recently has Lee Marcus shown her work to more than a small group of friends. Not long ago she destroyed most of her earlier drawings and paintings, and explained it as a release from the weight of her own art history. The two drawings of flowers, in crayons, are examples of her early work; and the shell with pearls and ribbon, in pastels, is her most recent. Twice a resident of Cannon Beach, she is currently in Seattle. Today is her birthday.
