

more to dark than
brighter the light.
Schizophrenia is the accuser.
can darkness over power light?
Dark affecting light. Paul Evalt
It is so dark you can't see even with
the light on!

I am an artist. I live on Social Security disability. I have enough paintings and drawings for a book: I need money to publish my book and my material. I need a grant. I'm paranoid schizophrenic. I want to show what I do. I hope that the stigma about mental illness will be lessened by my good paintings.

~PAUL EVALT 9E2X

Paul Evalt lives in Astoria. His work can be seen in many places downtown. He sells his paintings and drawings on the street and inside.

confusion
He came to a conclusion. Paul Evalt
