

GARY VISKUPIC

Uncle Sam, America's favorite cartoon character is also its oldest, 150 years old in 2002 — though there is evidence a figure of the same name appeared as early as 1813. Mickey Mouse is only in his late 70s, Bart Simpson still a boy. Bevis & Butthead died in infancy. Webster's 'New World Dictionary' describes Uncle Sam as, "The U.S. (government or people) personified as a tall man with whiskers."
