

Readin', writin' and fun At VML summer schools

The children concentrated hard. Their hands were busy. They were making models of ships. Many of them saw big ships for the first time only the day before when they took a field trip to the public docks in Portland.

The young ship-builders were students at Canby Summer School. Students at all 12 Valley Migrant League summer schools learn the same way. They visit interesting places in the area. Then they talk about their experiences later. Some children took a trip to Alpenrose Dairy. Some of them went to the Portland Zoo.

Children at the Independence and McMinnville summer schools go swimming during the day. Many of the summer schools teach singing and dramatics.

These are the Valley Migrant League summer schools which are still open: Aumsville, Hillsboro, Dayton, Eola Village, and Canby.

We have fun learning to read. Nos divertimos aprendiendo a leer.

We make bean bags to play with. Hacemos bolsas de frijolitos para jugar.

We learn to tell time. Aprendemos a leer las horas.

We scrub our hands well. Nos lavamos las manos bien.

Umm! I love graham crackers. Umm! Me gustan las galletas graham.

Recess is the best time of all. El recreo es el mejor tiempo todo.
