Every size for short, stout, tall, slim and regular men.

FAMOUS CLOTHING CO.

CORNER MORRISON AND SECOND STREETS

THE UNION LABEL.

Under the caption "The Union Label a Sanitary Guarantee," the New York Daily News recently published the following excellent editorial:

The remedy for the criminal condition of affairs brought to light with respect to the meat packing, canning and sausage making industries in Chicago and this city is plain, simple and direct. It is to demand the UNION LABEL on every manufactured article of food, cigars, clothing, etc.

Every label issued by the United Garment Workers of America bears upon its face the guarantee of B. A. Langer, the general secretary, that the garment on which it is sewed has been made in a clean, sanitary workshop and not in a "sweatshop" or "unclean" establishment.

The union label of the Cloth Examiners' and Spongers' Union reads in part, as follows: "This label represents honest workmanship performed in CLEAN, SANITARY shops, where LIVING CONDITIONS prevail."

It is a matter of regret that the Cigarmakers' International Union saw fit a few years ago to change the wording of its union label from the declaration "that the cigars contained in this box are a guarantee that they have not been made by sweatshop, convict, Chinese labor," to the almost meaningless phrase employed now.

The wording now is as follows:

"This certifies that the cigars contained in this box have been made by a first-class workman, a member of the Cigarmakers' International Union of America, an organization devoted to the advancement of the moral, material and intellectual welfare of the craft. Therefore, we recommend these cigars to all smokers throughout the world."

Of course, the indorsement of the cigars by so well and carefully managed an organization as the Cigarmakers' International Union is known to be a big guarantee itself that the cigars were made under the very best sanitary conditions, for the union would not, and could not, afford to lend its name and influence to any product made under other surroundings.

The Union Cigarmakers, it must be remembered, are the pioneer anti-sweatshop fighters. They made war on the tenement house cigar factories years before other trades organized to fight the evil.

It was the union Cigarmakers who gave Theodore Roosevelt his first start to the White House, when they furnished him with the opportunity as an Assemblyman in Albany in the early 80's to advocate their bill abolishing tenement house cigar factories.

The first report of the Bureau of Labor Statistics, now the State Department of Labor, issued twenty years ago, largely upon information supplied by the Cigarmakers' Unions

of this city, for the first time exposed in graphic style and picture the shameful and unhealthy conditions under which cigars were being manufactured in this city.

The anti-sweatshop laws, bakeshop laws, factory laws, etc., are all measures to bring about healthful and sanitary conditions in the clothing, baking, tobacco and other industries. All originated with some labor organization.

All the union labels, shop cards and other union trademarks state plainly what they stand for. The printers' union label, for instance, is a guarantee that the printed matter bearing the union imprint comes from an office where eight hours' work a day is the rule, and where good wages are paid for good work.

None of the packing, canning and sausage making plants which are now under such severe fire are union establishments. Their cheap, overworked, underfed and underpaid labor is on a par with their dirty, filthy, unhealthy surroundings. It is such labor that the meat poisoners of Chicago and this city need in carrying out their criminal and selfish designs.

The remedy for the disgusting revelation in the meat business is not to stop eating meat. It is to compel the packers, butchers, etc., to unionize their plants and to place the union label on their manufactured product or the Butchers' Union shop card in their window.

This is more practical and effective than a hundred investigations or inspections.

What has been done by the Cigarmakers, Garment Workers and other unionized trades can be done by the Journeymen Butchers and Meat Workers.

What have the meat poisoners gained by their ill gotten gains? They are today being excreted all over the world; they have been pilloried as the meanest scoundrels alive, and social ostracism is their sure portion.

Their rotten practices will lose them millions in money and the confidence and respect of their fellow citizens, which they can never recover in this world. Their wealth stinks. It will plague them for the rest of their lives.

"What shall it profit a man if he gain the whole world and lose his own soul?" (and honor)? "As ye sow ye shall reap." The packers are reaping that which they have sown. Their Nemesis has overtaken them at last.

HOME FOR UNION MINERS.

The miners of the state of Montana have inaugurated a movement looking to the erection of a home for aged and incapacitated miners of that state. At a recent meeting of the Butte Miners' Union a resolution was adopted instructing the secretary to correspond with Montana's congressmen and senators, with a view to the introduction of a bill in both houses of congress making an appropriation of public land for that purpose.

SAN FRANCISCO UNIONS.

Having Established Headquarters, With Name of Secretary and Address.

For the information of Portland unions that would like to communicate with the members of their craft in San Francisco, and haven't the information where they can be found the following list is republished from the San Francisco Labor Clarion:
