Short Sermon
The Scriptures say that it is the love of money, not money itself, that is the root of all evil. Some people worship it who never have enough to buy an automobile. So it is land speculation that holds back a town, and the speculators often never have enough to buy themselves an automobile, either. The land does not hold back development. It is all right, but the speculator—what earthly good is he? Sometimes he is a wise guy, and then he speculates considerably and builds some, too. No town is made up of town lots. The land speculator often lands where the lover of money lands. The speculator will now pass the contribution box.
In Lake country every week brings forth notices of new irrigation enterprises. Cowhead lake is the latest noticed. It will bring in 60,000 acres from the desert and increase the value of every acre fiftyfold.
