NEW ADDITION IN PARK

If you haven't noticed....there is a new gazebo in town. With some liberties, it's inspiration was based on the old gazebo that was in the park many years ago. The gazebo was built for the Butte Falls Discovery Loop Tour that is beginning to take its final form. The gazebo will have

interpretive panels that will welcome the traveler to Butte Falls and give a brief description of the Town's remarkable past. Watch for future additions.

A special thanks to **KEN OWENS** for his beautiful design, **TERRY SCHULTZ and CREW** for their superb craftsmanship, **BILL TUCKER** for his unfailing support and assistance in construction, **RON HAILICKA** for donation of important materials and **DARELL WINDOM** for those massive yew posts.

There are five types of local wood in the gazebo....CAN YOU IDENTIFY THEM????
