

First, let us introduce you to **Lillian Lawrence**. At the age of 15 Lillian is the oldest of five children. She has spent most of her life in Oregon, but has had the opportunity to spend some time in Canada. She was home schooled through the 7th grade and then attended Prairie Junior High in Alberta, Canada. Upon returning to Oregon, Lillian completed the 8th grade as a home schooled student and then entered Butte Falls High. While still being home schooled, Lillian played on the Butte Falls Jr. High Volleyball team. Now that she is a Sophomore, Lillian is Secretary/Treasurer of her class and plays on the volleyball team....number 41. If you've been to the games, then you'll know what a great player she is. Lillian is a highly motivated young lady and is self taught on the computer. From September of 1994 to September 1995 she has read over 80 books. The Butte Falls Librarian says that Lillian visits the Library almost daily and is one of her best customers.

In addition to reading, Lillian finds time to ride her horse, swim, play piano and spend time hiking and camping with her family. After completing high school she may choose to study to become an English teacher.

Those of you that attended the special school board meeting on the proposed drug testing may remember Lillian. She was one of three students who spoke before the School Board and offered her support of the proposal. Lillian's mother describes her as "a real leader", and we're sure we'll be hearing more about her in the future.

Next, let us present **Brody Ferguson**, a Junior and number 64 on this years football team. The staff of The Bulletin wishes Brody a Happy Birthday. He will be 16 on the 6th of October. Brody is the youngest of two children and has lived all his life in Butte Falls. He is a very active and dedicated young man whether in school or at home. Brody participates in all school athletics and is active in the Future Business Leaders, and is Student Council Vice President. Last year, Brody led the way in an effort to get approval from the town council to construct a "reader board" in the park. This would be in a location visible to almost everyone traveling

through town and would show information on High School activities. Although approval has not been received for this project, Brody has not given up. He is still exploring possibilities and we'll be hearing more about this project in the coming months.

When not involved in school activities, Brody is a partner in the family business, Rogue Archery Den. He deals directly with sales representatives and makes decisions regarding sales. He also has many customers who specifically ask for him. In addition to working in this field, Brody competes in archery and has won several awards.

During the summer Brody worked at the family business and also found time to work on the hay crew for Bob Lozano and did some work for Rocky Cowie. As you can see he's a very ambitious young man.

After graduation, Brody plans to attend college and will probably go into a medical or engineering field.

When Brody's Mom was asked about his hobbies, she said, "his girl friend, Tanya". Seems he's had the same girl friend since grade school. His mom says, "He's a one woman man!".

**ONE OF OUR STUDENTS
IN THE SPOTLIGHT, BRODY FERGUSON.**
