

Rooter Bus Review

The Butte Falls Community wishes to thank the anonymous donor(s) who provided for rooter buses to this years football and volleyball games. Many students and families took advantage of this wonderful service. Twenty-two riders were on the bus to the State Championship game. Most of those riding would not have been able to attend if it were not for the generosity of the donor(s) and the school district for their willingness to accept the offer. **YOU PROVIDED A GREAT SERVICE! THANK YOU!**

Students vs. Staff Volleyball

In their wildest dreams most students have probably never thought they would see the day any of their teachers would kiss a pig. However, many have thought they would like to toss a pie or two in a teachers face. Both of these came true at the Close Up sponsored volleyball game on November 16.

The high light of the evening came when mild-mannered Mr. Staikoff laid on the floor, looked up at the cute pig and gave her a **BIG KISS!!!!** The students and audience alike were delighted. Mr. Staicoff surprised us all!! He put on quite a show and has earned a new image.

Watch closely for upcoming events sponsored by **CLOSE UP**. This group knows how to have fun while earning funds! g.karches

Security Patrol

The next security patrol meeting is **December 7th at 6pm** in the Elementary Library. This is also a **potluck!!!** Bring a favorite dish.

Spotlight on Kids

Julie McClelland, When only the best will do!
When you meet Julie McClelland, it becomes apparent you are seeing someone who enjoys everything she does. Besides being energetic, Julie has a positive attitude about life and about the opportunities that await her after she graduates from Butte Falls High School this June.

Senior, Julie McClelland, gets excited when she says, "I want to do something important with my life." This year's FBLA President plans on spending the next seven years in college. With

a major in pre-med, Julie hopes to pursue a career as an orthopedic surgeon. Julie's interest in being a surgeon was peaked when she underwent an operation for a knee injury.

Julie feels that her education at BFHS and the support she has from many of her teachers helped prepare her mentally for the challenges that await her in college life. Julie admits, "I always compete with other students. I want to be first or second in my class. I like being up there knowing I'm giving it my best!"

"Of all my teachers, each has given me something or brought something special out of me," she continues.

"Mr. Bone has taught me leadership and to be aggressive."

"Mrs. LeFever has encouraged me to express my opinions verbally."

"Mr. Carvalho - that accounting can be fun."

"Mr. Hartley stimulated my mind."

"Mr. Foley improved my creative writing ability."

"And Mr. Staicoff believes in me and encourages excellence."

Julie and her family moved to Butte Falls six years ago from Central Point. She is the oldest of four children. Julie is very happy to live in Butte Falls. "I absolutely love the people. The whole town is like one big family—so giving and caring."
