

SPOTLIGHT ON KIDS

Kimberly McLauchlan
Student

Our Spotlight this month falls on Kimberly McLauchlan, a ten year old 5th grader at Butte Falls Elementary School. Kimberly has the honor of being our youngest volunteer for Cycle Oregon. Kimberly was part of the recycling crew working at the Lake of the Woods lunch site. From early in the morning until late in the afternoon Kimberly was busy collecting cans, bottles, and other recyclables from the designated cans as well as going through the regular trash receptacles looking for improperly disposed of containers. In addition to collecting, Kimberly assisted with washing out the cans and bottles prior to bagging them. Recycling is not something new to Kimberly, her family practices recycling and she is described by her father as being the families "best recycler."

This was not Kimberly's first volunteer activity for the community. She has helped at the community potlucks, the Spring Break Children's Activities at community hall, and at the last two Forest Jubilee Celebrations. She

performed as a clown for the 1995 Forest Jubilee and assisted with the *Kids Activities* this year.

According to her mom, Kimberly doesn't like to be outdone by her older sisters. Like her sisters, she is described as an excellent student and plans to follow in their foot steps by playing on the basketball and volleyball teams next year when she will be eligible as a 6th grader. Kimberly does have a uniqueness in her family of eight. She is the only southpaw.

When asked what Butte Falls needs for kids Kim replied "toys in the park, slides and swings." Thanks Kim for being so helpful in the community. Perhaps you can help make 'toys in the park' a reality.
