NOW THAT'S A LOG!!!

Ron Hailicka and Ray Macy stand next to a real log truck load. Harvested from a BLM blowdown salvage timber sale, this log is destined to become part of the restoration of the USS *Constellation*, a Civil War ship launched in 1854. This ship is not to be confused with the USS *Constitution*, the 1797 era frigate that recently set sail under it's own sailpower, partly also made possible by Ron's remarkable lumber gathering efforts.
