

## TOWN NEWS

### Cops Corner-by Mel Ray

The past few weeks we have had a rash of problems with young men running around after curfew. I had to arrest two young men for fighting and we are now facing felony assault charges. This past evening I caught a teenager about to set fire to a trash-can that had a plastic gas can inside. This is VERY stupid! Especially with the condition of the forest surrounding us. PARENTS be warned, you can be held financially responsible for any damages that your child causes. This could be a very large amount of DOLLARS when you start looking at fire supression costs.

On a happy note, Dustin has completed his academy and will be back on duty. Dustin's priority will be to ensure that the curfew will be enforced. That means citing anyone we catch. No more warnings. The warnings have not worked and so you have forced us to act in the only other means that we have. It will start costing the offender and the parents money.

We have added a new reserve officer, William Gibbons. William has had several years experience working as a reserve officer and I believe he will be an asset to the town.

Have a Good Day,  
Officer Mel
